PREMIER'S ADVICE TO SETTLERS FROM STATES

Sir Wilfrid Urges Them to Take Part in Public Life of New Home—Trade Relations With the Republic

(Special to the Times.)
Moose Jaw, Sask., Aug. 4.—In days of travelling, punctuated by brief stops, where the Premier speaks his mind informally from the rear of his car, the people of the west are getting close to the personality and convictions of Sir Wilfrid Laurier.

Expressing his appreciation of the civic enlightenment at Weyburn, where the mayor is president of the Conservative association, and, by a peculiar coincidence, every member of the council this year is of that political faith, Sir Wilfrid yesterday feelingly referred to the fact that his greeting had been one of the most cordial in the whole tour.

"I remember, with a full heart," he said, "that you have received me with the warmth of a brother Canadian whom circumstances have for the moment placed at the head of our common country."

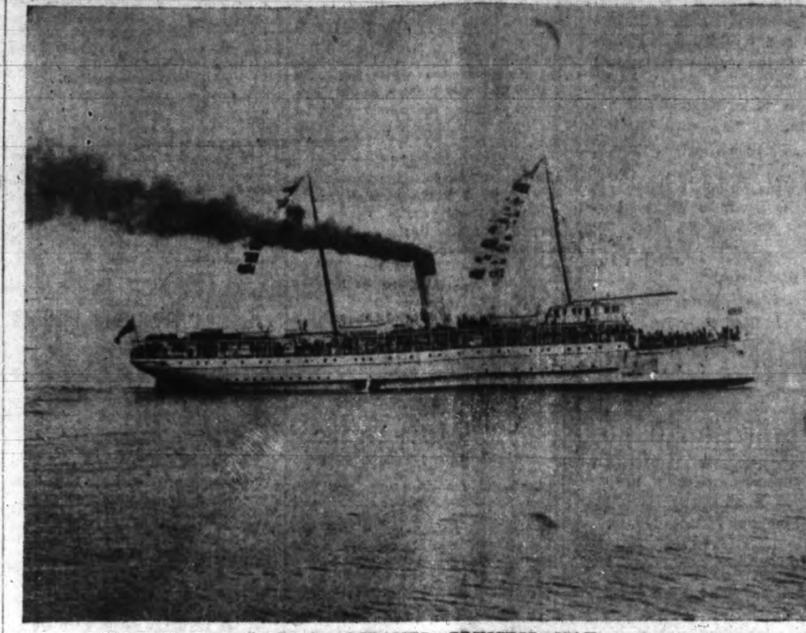

The Premier availed himself of the opportunity to congratulate the town upon the fact of the discovery he had just made that the council were all of one political faith. It was a good thing for the community that municipal matters were not conducted on party lines. It was his conviction that a higher standard of municipal efficiency was obtained when party lines were obliterated and citizens sought only to secure the services of the men best able to conduct their civic affairs.

I have had great dreams. I am too old now to expect to see them become realities. That may be your portion; I pray that it will. An alliance, offensive and defensive, between the British Empire and the American republic would result, in my humble opinion, in a state of the world's affairs under which not a single gun in the world could be fired without permission. Perhaps this is too ambitious a dream, but something we can do. Our commercial relations in the past have not been what they should be. We have taken our stand on the British preference. We will not depart from that. It is, and should remain, part of our fiscal policy. But I can conceive of a wide field for reciprocity. That is the goal we can attain.

Hon. G. P. Graham addressed himself specially to young men. There was a great opportunity in developing Canada on big principles and high ideals.

"Think national problems out for yourselves," he urged. "Don't let your grandfathers do your thinking for you. Base your opinion on your own investigations. Take your place in patriotic citizenship. Think for yourselves. Be ready to step into the shoes of those gone before, and so conduct yourselves as to prove a credit to the country in which you live and the parents who gave you birth."

At Yellow Grass, Wilcox, Bouleau and Pasqua, brief stops were made, and Sir Wilfrid spoke to cheering crowds gathered at the stations. He was accorded an enthusiastic demonstration on arrival at Moose Jaw, and, following a drive around the city, met the local grain-growers in conference, who presented memorials through President Henry Dorrell of the Agricultural society. Sir Wilfrid declared his facial views to have been derived altogether from the school of English Liberalism and announced himself a "strong Gladstonian in principle."

C. P. R. STEAMER PRINCESS MAY. This well known coasting vessel went down in Lynn Canal this morning.

PRINCESS MAY SINKS IN LYNN CANAL

Goes Down After Striking Reef While En Route From Skagway To Juneau—All of Passengers and Crew Saved.

(Times Leased Wire.)
Juneau, Alaska, Aug. 5.—The Canadian Pacific liner Princess May, Captain John McLeod commanding, bound from Skagway to Victoria, sunk off Sentinel Island, in Lynn canal between here and Skagway, this morning.

The Princess May left Skagway at 8 o'clock last night and was due here at 4 o'clock this morning. Shortly after midnight the naval station at Cordova picked up a distress message from the liner, the operator saying his ship was sinking.

Later, ships and wireless stations as far south as Astoria, Ore., reported the Princess May in distress, but none have received any details of the disaster. It is believed all her passengers and crew have been landed. The ship cannot be far from shore and the water is not rough in the canal to-day.

All the ships in port here and at Skagway have gone to the aid of the May. A message from Skagway states that eighty passengers are aboard. The wireless operator here has been calling the Princess May all morning without result. This leads to the belief that the ship was deserted by the passengers and crew and has sunk.

All Aboard Saved.
Juneau, Alaska, Aug. 5.—(Later)—The steamer Princess May ran on a reef on Sentinel Island in the fog at 2 o'clock this morning and sank in two hours. All the passengers and crew were taken off. The sea is calm.

The Princess May was always looked upon as one of the best and safest steamers of the C. P. R. coasting fleet. Although 22 years old she was in splendid condition and was equal to many of the steamers which are built to-day. She was built for the Chinese government by Hawthorne, Leslie & Co. of Newcastle, England, and was used in the business between Canton and Formosa when that island was part of the Chinese empire. After the Japanese-Chinese war the vessel, with her sister ship, was laid up, and was purchased by the Canadian Pacific Navigation Company in 1901, at the time of the Klondike rush. She was at once repaired and the rigging was changed to suit the same run almost all the time since.

The Hating was commanded for a number of years by Captain Gosse of this city, now pilot for the port of Nanaimo, and it was while he commanded her that she ran on the rocks in a fog at Laquet Island and tore her side open. In 1904 she was rebuilt by the B. C. Marine Railway Co., and renamed the Princess May, when she was taken over by the C. P. R.

The Princess May was a twin-screw steamer, 245 feet in length, with a beam of 33 ft. 2 in. and a draught of 33 ft. 4 in. She was built in 1888 and had a tonnage of 1023 net and 1717 gross.

Captain McLeod has been in command of the steamer for a number of years and is generally looked upon as the best navigator on the coast. He has taught the business to a half hundred younger men, who all look upon him as their marine god-father, and they still go to him for advice whenever it is required.

The following is a complete list of the officers and men aboard: Captain, John McLeod; chief officer, John Richardson; first mate, Arthur Slater; second mate, A. B. Robson; chief engineer, John McGraw; second engineer, W. B. Roe; third engineer, J. A. Sullivan; fourth engineer, G. Grant; steward, W. H. Rowlands; purser, M. C. Ironsides; freight clerk, V. W. Sortwell.

STRIKE BREAKERS GAVE FALSE INFORMATION
Thirteen Men Arrested at Sarnia, Ont., Are Remanded for Sentence

(Special to the Times.)
Sarnia, Ont., Aug. 5.—Thirteen strike breakers who entered Canada, were arrested and put in jail, appeared before Magistrate Gorman here. All pleaded guilty to the charge of giving false information and were remanded for sentence. It would appear that they had been gathered in all the way from Minneapolis and Kansas City to Port Huron. It was claimed that some one represented to them that the strike was over, and they claim that they were deceived. They were supplied with the necessary money for qualification, but had to pay it back after coming into Canada.

HENNIKER-HEATON'S PROPOSAL
Would Abolish Political Frontiers for Postal, Telegraph and Wireless Communications.

London, Aug. 5.—Henriker Heaton is urging the appointment of an "Imperial and Foreign" postmaster, whose first duty it should be to convene a meeting of European postmasters-general, with a view to abolishing political frontiers for postal, telegraph and wireless communications between countries of the world.

WOMAN DISAPPEARS
Seattle, Wash., Aug. 7.—Mrs. John J. Bowen, wife of the junior member of the firm of Tatum & Bowen, machinery dealers, has mysteriously disappeared from Glenbrook Inn, Lake Tahoe, Wash., where she went a few days ago, according to advices reaching here. A wrecked boat was found on the shore of the lake yesterday morning containing an empty envelope addressed to J. Bowen, 214 East Pike street, Seattle. That is Mr. Bowen's address. A woman's silk parasol was found floating in the water nearby. Mrs. Bowen left the inn at 10 o'clock Wednesday morning and has not been seen there since.

WATER COMMITTEE TO VISIT GOLDSTREAM

Decision To Do This was About Only Thing Accomplished at Last Night's Meeting—Reports Presented.

Mayor Morley—I must say, gentlemen, that I regret very much the lack of interest shown in this question by a majority of the members of the citizens' committee. I appointed twenty-five leading citizens, and there are only eleven here to-night. This does not look good. C. E. Todd—Well, I may say, Mr. Mayor, that there will be fewer still at the next meetings unless we get on better. We have done nothing so far.

These were the concluding remarks at the meeting of the city water board held at the city hall last evening, and they indicate pretty accurately the sum total of what was accomplished in the direction of solving the problem as to the source of Victoria's future water supply.

J. J. Shallocross presented a report as chairman of the special committee appointed at the last meeting to ascertain the figure at which the holdings of the Esquimalt Waterworks Company could be acquired, and John Meaton, chairman of another committee, to secure additional information regarding Sooke, also presented a report.

These reports were in direct conflict. That of Mr. Shallocross set out that Goldstream was a good business proposition; that of Mr. Meaton declared that Sooke Lake was the only scheme that the people of Victoria should be asked to entertain.

The only thing accomplished at the meeting was the reaching of a decision to have all the members of the committee visit Goldstream on Saturday of next week to inspect the works of the Esquimalt company. On the meeting being called to order Mr. Shallocross presented the following report: The committee appointed to interview the Esquimalt Waterworks Co. reported as follows: Gentlemen—Your committee appointed to report upon the probable cost of acquiring the undertaking of the Esquimalt Waterworks Company begs to state that it interviewed the directors and officials connected with the Esquimalt Waterworks Company, and that the following information was obtained: Since the report of Mr. Adams, made in 1906, the Esquimalt Waterworks Co. has made the following additions to its undertaking: 4,761.37 acres of land at Goldstream, etc. Jack lake reservoir. Loon lake reservoir. Cross ditch. Mountain lake ditch. Japan gulch reservoir. Goldstream main pipe line to Victoria West, in course of construction.

The acreage at Goldstream practically including the whole of the water shed. (b) Five storage reservoirs having a total capacity of 3,625,000 gallons for summer use; A balancing reservoir at Cabin pond with a capacity of 15,000,000 gallons; Pipe line to the B. C. Electric Company's power house; Japan gulch balancing reservoir below the power house with a capacity of 25,000,000, of which about 20,000,000 is available for water supply; A main from the Japan gulch reservoir to Arm street, Victoria West.

The revenue for the main to Victoria West, consists of Siemens-Martin mild steel main, average diameter 20 inches, thickness of shell for the entire length 5-16 inch for the straight pipes and 3-8 for the curved and special pipes. This main has a capacity of 15,000,000 gallons per day with a fall of 22 feet per mile, leaving an available head of 220 feet at a distance of 104 miles from the Japan gulch reservoir. The storage capacity at Goldstream can be increased to 22 1/2 million per day at a cost of \$250,000. At the present time there are 547 services connected with the Esquimalt waterworks system, as compared with the 483 in 1906. The revenue for the year ending June 30th, 1910, amounted to \$1,208,253; provincial taxes and operating expenses, \$6,617,78; leaving a net revenue of \$4,733,05, but hereafter the net revenue will be increased by the saving of some expense items such as the present cost of pumping at Thetis lake.

In addition to the other supplies, after the completion of the main to Victoria West, there will be a stock consisting of about 5,000 ft. of 20-inch main and accessories, and about 53,000 ft. of pipes of various sizes for distribution services. Your committee is informed that when the Victoria West system is connected with the new main the supply of water in the distribution pipes will be doubled and ample for all purposes. It is expected that the new main will be ready to deliver 15,000,000 gallons in Victoria West before the end of this year. All of which is respectfully submitted. (Sgd.) J. J. SHALLOCROSS. C. F. TODD. A. M. BANNERMAN. (Concluded on page 7.)

ARE ACCUSED OF MURDERING INFANT

Man and Woman Committed for Trial Charged With Causing Death of Latter's Child

(Times Leased Wire.)
Orillia, Ont., Aug. 5.—Thomas McNulty and Mary Dokin were brought before Police Magistrate Clark yesterday charged with the murder of the latter's infant child. Nearly a score of witnesses for the prosecution were examined, and both accused were committed for trial. The girl gave evidence against McNulty, charging him with being the father of the child and said she had done away with it at his instigation.

TWO DROWNED

(Special to the Times.)
Toronto, Aug. 5.—Harry McBratney, 15 years of age, was drowned in Lake Simcoe by the upsetting of his sailboat. Fred Smith, cook on the schooner Antelope, fell overboard at West Market street dock last night, and was drowned.

ALD. HUMBER WILL RESIGN

ON LEGAL ADVICE IS TO TAKE THIS COURSE

Violated Municipal Laws by Allowing Corporation to Place Earth on His Land

ALD. RUSS HUMBER.

will again be a candidate, and his friends are sanguine that he will be returned unopposed.

Ald. Humber was asked by the Times this morning for an explanation of the circumstances which led up to his resignation, and he said: "The matter arose over the delivery of some bricks from the works of the Humber estate, of which I am manager, to the city hall, where certain alterations and repairs were to be made to the lock-up. An order for bricks was placed with Dinsdale & Malcolm. These bricks were duly delivered, and I am informed that by this act I am open to disqualification. "Then, again, it appears I have been guilty of an infringement of the provisions of the Municipal Clauses Act by permitting the corporation teams to deliver to the Humber brick yards a considerable quantity of earth removed from Manchester avenue, when that street was being excavated. The circumstances of this case are as follows: Last year Mr. Topp, the then city engineer, found it difficult to secure a dumping ground for debris of all sorts that the corporation is from time to time required to dispose of, and he suggested to me that a piece of low-lying ground at our yards on North Douglas street be utilized. I told him to go ahead and from that day down to the present city teams, when any rubbish had to be disposed of, have been using this yard as a dumping ground. "When Manchester avenue came to be excavated a few days ago, some dirt

TAKE STEPS TO PRESERVE PEACE

SPANISH AUTHORITIES MASSING SOLDIERS

Reinforcements Sent to San Sebastian—Clashes With Revolutionists

(Times Leased Wire.)
San Sebastian, Spain, Aug. 5.—Anticipating a great demonstration by the clericals, revolutionists and Carlists on Sunday, the government to-day sent reinforcements to San Sebastian. The incoming troops are supplied with ball cartridges, and it is reported that orders to their commanders are to shoot to kill at the first sign of disorder. San Sebastian, the summer capital of the kingdom, is seething with discontent, and a revolt is discussed openly. The temper of the populace is aggravated by news from the Basque province officials that clashes between troops and revolutionists have occurred. The fact that dispatches are closely censored leads to the belief that the conflicts are more serious than the dispatches relate. Newspaper correspondents are anticipating the adoption of a strict censorship here by arranging for courier service to the French border, where dispatches may be forwarded by telegraph. It is believed here that wealthy aristocrats are financing the demonstration planned for Sunday. They are said to be employing automobiles, horses and wagons to bring hundreds of per-

DECISION IN CONSPIRACY CASE POSTPONED

Lindsay Bank Makes Charge Against Three of Its Former Employees

(Special to the Times.)
Lindsay, Ont., Aug. 5.—After hearing the case against A. E. McGill, former manager of the Farmers' bank, who with J. J. Fleury and J. L. Coulter, also ex-employees, are charged with conspiracy, Magistrate Jackson has remanded the case until Wednesday in order to study the evidence before deciding whether to send the accused for trial or not. This unique case is attracting widespread attention. The allegation of the Farmers' bank is that people have been induced by misrepresentation to withdraw their deposits from that bank and place them with the Home Bank, of which McGill became manager of a new local branch on the very day he left the employ of the Farmers' Bank about July 2nd.

FAVORS DECIMAL SYSTEM

(Special to the Times.)
Melbourne, Aug. 5.—The House of Representatives by 35 to 2 adopted a resolution endorsing the decimal system. Australia has decided to endeavor to seek the approval of the Imperial conference for the adoption of the system within the empire.

FIGHT PICTURES

Mexico City, Aug. 5.—Before an enormous and cosmopolitan audience the Johnson-Jeffries fight pictures were exhibited here to-day.

SEVEN LOSE LIVES IN FIRE

SCORE OF OTHERS SUSTAIN INJURIES

People Sleeping in Attic of Old Hotel Had No Chance to Escape

(Times Leased Wire.)
Jamaica, L. I., Aug. 5.—Five men and two women were burned to death, two persons are dying and a score sustained injuries by the destruction of an old wooden hotel and employment agency here. That the death list is not greater is due to the frantic barking of dogs attracted by the glare of the fire. The dogs roused persons in the neighborhood who spread the alarm and awakened those sleeping in the building. The fire broke out before daylight and was not discovered by anyone around the hotel. It was not until persons awakened by the dogs made their way to the building and alarmed those sleeping within that they knew of their danger. The fire gained rapid headway and escape by the stairways was cut off. Most of the inmates jumped from the windows. Those burned to death were sleeping in an attic and had no chance to escape. The old structure was crowded, the rooms being filled with cots on which the inmates were sleeping.

LINLEY SAMBOURNE DEAD

London, Aug. 5.—Linley Sambourne, chief cartoonist of Punch, is dead, aged 68.

Linley Sambourne was educated for the engineering profession but later turned to art, his first drawings appearing in Punch in 1867.

POLICE CHIEFS MEET.

Vancouver, Aug. 5.—With the selection of Ottawa as the next meeting place and the election of officers, the Chief Constables' Association of Canada closed its business sessions here yesterday. The officers chosen are: Chief Clark of St. John, N. B., president; Chief Chamberlain of Vancouver, vice-president; Deputy Chief Stark of

Toronto, secretary and treasurer. The executive committee consists of Chief Kimmins, Niagara Falls; Campeau, Montreal; Col. Sherwood, Ottawa; Chief Detective Carpenter, Montreal, and Chief Langley, Victoria. The convention expressed itself somewhat strongly on the too free use of petitions for executive clemency on behalf of prisoners. A copy of the resolution covering the whole matter will be sent to the department of justice.

LOCAL NEWS

Seattle, Wash.—S.S. Iroquois leaves daily, except Sunday, at 9 a. m., from Victoria Dock Co.'s wharf, next post office.

A bicycle rider turning from Belleville street to the causeway yesterday afternoon collided with an express wagon and had one hand run over. The wheel was badly damaged.

Thomas Edwards has been appointed to represent the Victoria Poultry association at the conference of poultrymen, which will be held at Vancouver, in connection with the exhibition, on August 18. The convention has been called for the purpose of forming a British Columbia poultry association.

Jacques Heeg, an employee of the Empress hotel, while bicycling up Government street near the post-office, was struck by a Spring-Ridge car yesterday afternoon. He attempted to cross in front of the car. The bicycle was run over and smashed to pieces. Heeg jumped on the fender and thus undoubtedly saved his life.

It is likely that the city council will at its next meeting take steps to urge upon the Esquimalt Waterworks Company the necessity of hurrying the work of installing the new main from Goldstream to Victoria West. Further complaints of the poor pressure for fire fighting purposes have been made by Chief Davis.

The statement that the Swift Packing Company has acquired the retail butcher shops of the B. C. Market company in Vancouver was, it appears, erroneous. The shops have been taken over by a company entirely independent of the Swifts. A. B. Johnson is manager and associated with him is E. E. Welch, for many years manager of the B. C. Market in Victoria.

Chief Davis, of the fire department, in his July report suggests that, as a large number of fires during the dry season are caused by sparks alighting upon roofs, the building by-law be amended so as to compel all owners of buildings erected in the future to put next to the roof before shingling either a one-half inch coat of mortar or asbestos of a certain weight or thickness.

During last month the fire loss was \$2,297.75 on buildings on which insurance to the amount of \$23,100 was carried, and \$9,375 on contents on which the insurance was \$11,250. The most serious loss was to the stock of the B. C. Fur Company about three weeks ago. During the month a total of thirty-two alarms, eight box and twenty-four telephone were sent. The chief reports that the alterations to the Yates street hall have been completed and he has placed No. 2 Waterous engine in commission there.

With appropriate ceremony the new mission steamer Columbia II was dedicated this afternoon at 3 o'clock at the G. T. R. dock, where she is moored, by Bishop Ferrin, assisted by a number of the clergy of the city. In the presence of a large number of invited guests, the steamer will remain in the harbor until Saturday. Rev. J. Antle is in charge of the Columbia, and he has as his assistant Rev. Dr. Niviv, who lately joined the vessel.

THE CHARLTON CASE.

Washington, D. C., Aug. 5.—What is assumed to be Italy's formal demand for the extradition of Porter Charlton, the young American charged with having killed his wife, Mary Scott Charlton, at Lake Como, Italy, reached the state department yesterday.

As that case has not reached the jurisdiction of the department the papers were returned to the Italian embassy, whence they came. Accompanying the extradition papers were a copy of the course taken by the department, was a note from Acting Secretary Wilson, suggesting that as the case lay with the New Jersey court, the papers should be presented to the magistrate before whom the case was pending.

VICTORIA PLAYERS IN LINE FOR TOP PLACES

Schwengers, Miss Pitts and Miss Pooley Winners in Matches This Morning

By her win from Mrs. Proctor in the ladies' singles of the B. C. tennis championships this morning, Miss Y. Pooley has but one more win to get to be in the final to-morrow. This evening she plays the winner of Miss Pearce and Miss Phillips, and if successful will play the winner of Miss Pitts and Miss Bell for the championship.

Schwengers remained in the running this morning by defeating his brother, C. Schwengers, in the men's singles. In the mixed doubles Miss Pearce, although beaten with Hepburn, played a splendid game. The pair were defeated by Marshall and Miss Marion Pitts, the first set going as high as 13-11.

The complete results of the play this morning are: Men's singles—B. P. Schwengers beat C. Schwengers 6-4, 6-4; Marshall beat Ryall 6-0, 4-8, 6-1; Mixed doubles—Marshall and Miss M. Pitts beat Hepburn and Miss Pearce 13-11, 6-1; Muttonson and Mrs. Langley beat Whyte and Mrs. George 4-6, 6-3, 6-2; Cardinal and Miss Allen beat Crawford and Miss E. Pitts 6-2, 6-1.

Ladies' singles—Miss Alice Bell beat Miss Hobson 6-2, 6-8, 6-1; Miss Pooley beat Mrs. Proctor 6-2, 6-1; Consolation singles—Rithet beat Roberts 6-3, 6-1, and Montgomery beat Goward 6-4, 6-4.

JOHNSON BUYS NEW HOUSE.

New York, Aug. 5.—His desire for prominence still unsatisfied, Jack Johnson, champion heavyweight, is reported to have closed a deal today for the Herman Behr \$120,000 mansion in Brooklyns Heights, an exclusive residence section. Johnson, who has been detained in Chicago on account of an automobile accident in which his brother was hurt, is expected to move into his new domicile to-day.

It is rumored the neighbors will take drastic measures to force the colored pugilist from his new home.

NARROW ESCAPES.

Portland, Ore., Aug. 5.—Escaping death twice last night, first in an automobile accident and then under the wheels of a Southern Pacific train that bore down on her as she lay on the tracks unconscious, Mrs. Helen Hastings, of 106 Park street, Portland, is suffering from several injuries in the Portland sanitarium to-day. She is not expected to live.

When George Simpson's forty horse power automobile turned turtle about 7 o'clock last night at a point where the county road crosses the Southern Pacific tracks near Clakamas station, the woman, with eight other occupants of the motor, was thrown out. She struck the railway tracks when she fell and lay unconscious.

Including Mrs. Hastings, six women and three men were riding in the car when it was wrecked. The others were only slightly hurt, bruised and scratched.—Still dazed from the fall, one of the women in the car arose when she heard a train approaching. Seizing a red shawl, she ran several hundred feet down the track and succeeded in stopping the train before it reached the form of Mrs. Hastings.

OBITUARY RECORD

The funeral of the late John Belcham took place this morning to the naval cemetery, Esquimalt, he remains being removed from the Hanna parlors to St. Luke's church at 10 o'clock. An impressive service was conducted in the church by Rev. W. Baugh Allen, a number of officers and a firing party from the barracks being in attendance. After solemn volleys were fired over the grave and a bugle sounded "the last post."

There was a very large attendance at the funeral of the late Leonard Cousins, which took place yesterday afternoon from the L. O. O. F. hall to Ross Bay cemetery. Service was conducted in the hall by Rev. E. G. Miller, chaplain of Dominion Lodge, No. 4, of which deceased was a member, and A. W. Baylis performed the last rites of the order at the graveside. The pall-bearers were: R. Angerson, George Jeeves, P. A. Babington, W. Sommers, E. Etheridge, and D. Sheret. Two carriages were required to convey the many floral tributes to the memory of the deceased, and, in addition to the lodge members, many friends were present.

The funeral of the late Mrs. M. Guffie took place yesterday from the B. C. Funeral Parlor, where J. A. Woods conducted service. Appropriate hymns were sung and the Dead March was rendered at the conclusion of the service. The pall-bearers were members of the L. O. O. F., of which order the deceased's husband, Robert M. Guffie, is a member. The remains were interred in Ross Bay cemetery, and the following acted as pall-bearers: Fred Davey, W. McKay, H. Siddell and A. M. Davis.

The remains of the late Mrs. Isabel Cairns, who passed away at St. Joseph's hospital yesterday, are being embalmed preparatory to being shipped to Lacombe, Alberta, where interment will take place.

ILLINOIS BRIBERY CASE.

Springfield, Ill., Aug. 5.—Without returning any new indictments, the grand jury which was convened May 15th for the purpose of investigating charges of bribery in connection with the election of William Lorimer to the United States senate, adjourned at noon to-day. No date for the reconvening of the grand jury was fixed.

EXPECT MLE. LENEVE WILL SOON CONFESS

Young Woman Bursts Into Rage When Crippen's Name is Mentioned

Quebec, Aug. 5.—Ethel Leneve has turned against Crippen. The authorities believe she will confess soon. She burst into a rage when Crippen's name was mentioned this morning.

Investigations in London, (Times Leased Wire.) London, Aug. 5.—Scotland Yard detectives working on the Crippen case learned to-day that Crippen purchased five grains of hyoscine on January 19th. This drug was used by him to prepare medicines, according to the police. An analysis of the viscera of the body found in the cellar of Dr. Crippen's house at Islington, is being made in the belief that traces of hyoscine will be discovered.

REGULATION OF ONTARIO FISHERIES

Staff of Officers for Province to Be Organized by Dominion Government

Toronto, Aug. 5.—Ontario is soon to have two sets of fishery officers, provincial and federal. The Dominion government recalled its officers in 1898, following the decision of the judicial committee of the Privy Council which gave to the various provinces proprietary interest in the fisheries held by them prior to confederation. The Dominion government then felt that the provincial officials should see to the enforcement of the federal government's regulations, but now the federal officers have not succeeded in anything like a satisfactory enforcement, and, fearful that over-exploitation will leave the fisheries in a seriously depleted condition, the government has decided that the conditions are such as to call for the appointment of a thoroughly equipped staff of federal fishery officers. Accordingly Hon. L. P. Brodeur, minister of marine and fisheries, is proceeding with the work of organization.

ANNUAL REGATTA AT PORT DALHOUSIE

Port Dalhousie, Ont., Aug. 5.—The wind that was strong up the course for the regatta here this morning, continued to blow 20 miles an hour, and the water is well sprinkled with white caps. The wind is blowing straight down the course. A large crowd was on hand when the first heat in the junior fours was called with Lachine of Montreal, Hamilton and the Britannia of Ottawa as competitors. Owing to the wind all races will be straightaway, and with the wind at the oarsmen back, there should be some remarkable time made in each event, as it is decidedly favorable for fast boats.

A large delegation of spectators came over from Toronto, and the cars from intermediate points just about filled the grandstand, while a number of pleasure yachts lined the course. Junior fours, Britannia Rowing Club, Ottawa, won; Lachine—Rowing Club, second; Hamilton Rowing Club, Hamilton, third. Time, 7 mins. 22 secs. All three crews caught the water together, and Lachine and the Brits pulled to the centre of the course. Hamilton were the pluggers, and soon pulled up even with the other two after going about a quarter of the distance. Hamilton steered the much better course, but were chased back to the Lachine's course by the Brits, who fell back badly, leaving Lachine and Ottawa as the contenders; Hamilton took the lead by nearly a length when half the distance had been covered. In the meantime the Brits had come around the point with a rush on the outside and caught the others, winning on the wire by a length in a great finish.

Second heat, junior fours—Argo Rowing Club, Toronto, won; Toronto Rowing Club, Toronto, second; Ottawa Rowing Club, Ottawa, third. Time, 7.15.

TO ATTEND CONGRESS.

Cardinal Vannutelli Sails for Montreal Aug. 26—Canadian in His Suits.

Rome, Aug. 5.—Cardinal Vannutelli sails on August 26 by the Empress of Ireland to attend the Eucharistic Congress in Montreal. The suite includes Prince Ferdinand de Croix, Monsignor Sante Tamplier, two papal private chamberlains of the Cape and Sword; Thomas Kelly, New York; Lemoyne De Martigny, a Canadian generally residing in France who has been appointed as the pontiff desired to give Canada the honor of being represented in the suite of his legate.

NO RENEWAL OF SUBSIDY.

Kingston, Jamaica, Aug. 5.—The abandonment of efforts for a renewal of the steamship subsidy between Great Britain and Jamaica is announced. Neither the home nor colonial government is prepared to renew on the present basis and the shipping companies decline to accept less than £40,000 a year.

It is believed that Jamaica will endeavor to arrange a new fast service in conjunction with Canada.

ON TOUR OF INSPECTION.

Ottawa, Aug. 5.—Dr. Montzambert, director-general of public health, left this afternoon for the Pacific Coast. He will inspect all the quarantine stations going as far as Prince Rupert.

WILL ATTEND THE METHODIST CONFERENCE

St. John, N. B., Aug. 5.—Sixty-two delegates from the Maritime provinces and Newfoundland leave to-night to attend the Methodist conference in Victoria.

URGED TO RESERVE WATER STORAGE SITES

Resolution Passed at Meeting of Western Canadian Irrigation Convention

Kamloops, Aug. 5.—A number of resolutions were adopted at yesterday's sessions of the Western Canada Irrigation Association. The provincial government is to be urged to amend the water act so as to permit the separation of the water from the lands for which records are granted in order that such water may be amalgamated as part of an irrigation project.

Another resolution asks the provincial and Dominion government to cooperate for the speedy and equitable

settlement of all claims for water within the railway belt in British Columbia. The Dominion and provincial governments are to be urged to speedily select and reserve water storage sites on crown lands and acquire such other privately owned sites as may be required for irrigation purposes.

The provincial and Dominion governments will also be required to take the steps necessary to enable a water license to enter upon, use and occupy land within Indian reserves when such right is desired in connection with the construction of irrigation reserves.

Another resolution asks the directors of the meteorologist service to supply a sufficient number of observers with rain gauges to insure an accurate record of the rainfall in each district of Alberta and British Columbia being obtained.

Calgary will probably be chosen as the next place of meeting.

GUNNER ALLEN TO STAND TRIAL COMMITTED ON MURDER CHARGE YESTERDAY

Gunner Bryan, Who Saw Shooting, is Held by Police as Material Witness

Gunner Thomas Allen, accused of the murder of Captain Peter Elliston at Work Point barracks last Monday, was yesterday afternoon committed to trial at the preliminary hearing before Charles Hayward and R. B. McMicking, Justices of the peace. Gunner Jas. Bryan, the only eye-witness of the shooting so far discovered, was turned over to the provincial police by the military authorities on an order by Judge Lampman after the hearing, and will be held as a material witness for the assize trial.

The evidence contained very few details outside of those already published. Supt. Hussey, of the provincial police, examined the witnesses for the crown, and, upon his advice, Allen did not ask them any questions. For the greater part of the time the accused sat in the dock with his head bowed, apparently taking little interest in the proceedings.

Sergt.-Major Farley was called to the stand first. He was in the company office when Capt. Elliston left shortly after 9 o'clock on Monday morning last. Hearing a shot fired, witness rushed out to investigate, and saw Capt. Elliston standing in a crouching position with his hands to his throat about twelve yards from the office door. Blood was trickling through his hands from two wounds in his throat and from his mouth. To witness' query "Tell me who did it?" Capt. Elliston made no answer but waved his hand in the direction of the barracks building No. 2. The injured officer gradually sank to the ground and witness sent for the doctor and a stretcher. It was customary for Capt. Elliston to leave the office every day at about the same hour. No. 2 barracks quarters were directly opposite the company's office.

Mr. Hayward asked Allen if he wished to cross-examine the witness, but Allen answered that he did not wish to do so. Superintendent Hussey advised the prisoner that he had the right to cross-examine but as he was not represented by counsel it might be advisable for him to reserve his questions until he secured counsel.

Sergt. Askey, company clerk in the quartermaster's office, also testified in the direction of the barracks building No. 2. The injured officer gradually sank to the ground and witness sent for the doctor and a stretcher. It was customary for Capt. Elliston to leave the office every day at about the same hour. No. 2 barracks quarters were directly opposite the company's office.

Dr. Bapty, who made a post-mortem examination of the body, stated that he found bullet wounds on both sides of the dead captain's throat. That on the left side was about one-half inch in diameter and clean cut, while that on the right side, about half an inch lower down, was larger and with ragged edges. The course of the wound was transversely between the two openings and in a downward direction as would be the case were a shot fired from an upstairs window. The bullet entered from the left side and the wound was sufficient to cause death. The wound had evidently been caused by a rifle.

Dr. E. C. Hart, city coroner, who conducted the inquest following the tragedy, was called but did not appear. Dr. Hart is at present on his way to the East with the body of his father-in-law.

Bombardier Corrigan said that Allen asked him for a drink on the morning of the murder, and when witness refused it, said that he would "burst a stripe from off my arm quicker than it was ever sewn on." Witness had heard these threats before but had paid little attention to them. Instead he had told accused that if the latter had any grievance against him he (Corrigan) would "take a turn with him" behind the store rather than put accused in the guard house. Allen had replied, "You don't understand," and referred to Capt. Elliston, saying "Old Peter should be in charge of a ranch instead of a body of men." Allen claimed he

had been treated harshly by the captain, and stated that "every bullet has its billet, and I have one that will find its mark." The accused had made these threats against the captain on several occasions, but they were not taken seriously. Witness identified the rifle as the one from which the empty cartridge had been taken. It belonged to Allen.

Gunner James Bryan said that he was in No. 4 room with the accused when the shot was fired. He had been shaving, and had returned to the room to secure a hair brush. He went to the end of the room, and while looking in the mirror saw reflected thereon Allen's actions. The latter picked up a rifle and pointed it through the window between the two coats belonging to himself and witness. Allen took aim, and as witness turned from the mirror and started to run towards Allen the latter fired. The putting the rifle down he left the room without saying a word. It was not until about half an hour afterwards that witness heard that Capt. Elliston had been killed. He had heard Allen make threats against Capt. Elliston several times during the two weeks preceding the murder. On one occasion the accused used the words "I'll do away with that fellow some day." On that occasion witness looked from the window at which he and Allen were standing and the latter pointed to Capt. Elliston, who was walking across the yard.

Evidence was given by Gunner Brown of Allen's movements before the shooting. Trumpeter Trimby detailed the capture of the prisoner in some bushes opposite the St. George inn, Esquimalt road.

Col. Peters gave evidence of the search through the barrack rooms for the rifle from which the shot had been fired. Two rifles, numbers 51 and 53, were being examined at the same time, and as there was some question as to which one had contained the empty cartridge which had just been extracted from one of them, he had a clean rag drawn through both. No. 51 was dirty, indicating that it was from that rifle the shot had been fired. This rifle belonged to Allen. It was against the regulations for the men to have cartridges, but as many of the forces were going to target practice, any of them could secure possession of a few.

Constable Dockstader, of the provincial police, and Detective Carlow, of the city force, testified to remarks made by Allen when they were bringing him into the city. Allen after entering the rig started to talk, and asked if Captain Elliston was dead. He was answered in the affirmative, and when cautioned to say nothing which might be used as evidence against him, he said: "I know, I know, I understand. I'm sorry I killed him. I did not mean to kill him, but only to maim him." Allen declared he might as well be dead as his health was very bad. To which remark was the cause of it all. He also declared Captain Elliston had treated him "very mean." Allen on the way to the city also asked: "Where did I shoot him," and later stated, "I've been sick for a long time. You can ask Dr. Hart. I haven't eaten anything for nine days."

Allen was formally committed for trial.

Allen is said to be well-connected in the Old Country, and has a mother living somewhere in Ireland. He was in receipt of a remittance. According to officers at Work Point barracks there are other men of Allen's type in the service, and it would not be surprising if there is a clearing out of these alleged "undesirables."

WILL DEMAND HEARING FOR TROLLEY MAGNATE

San Francisco Attorneys Decline to Discuss Action in Contempt Case

San Francisco, Aug. 5.—With the sentence of five days' imprisonment in the county jail for contempt of court hanging over their heads, attorneys for Patrick Calhoun yesterday conferred concerning their plan of action when they shall appear before Judge Lawlor next Monday. The court on Wednesday, after imposing sentence, suspended judgment until Monday.

The trolley magnate's counsel refused to say what action they would take regarding their cases, except to assert that they would demand a hearing for their client on their motion that the indictments returned against him for alleged bribery be dismissed.

Besides declaring that they would not push their demands to the farthest point, Attorney Stanley Moore, the first of the three to incur the court's ire, made the following statement: "On Monday my father, J. J. Barrett and I will appear before Judge Lawlor to be remanded to the custody of the sheriff, if he sees fit to do so. We will then demand a hearing, but will not force the issue so as to bring further penalty for contempt."

"Judge Lawlor has indulged in a dirty political trick. He wants to advertise himself as a candidate, and most people do not even know that his name is up for renomination. If he insists upon our going to jail I will agree with Calhoun that it is a great honor. I do not anticipate any discomfort from imprisonment.

BOY DROWNED.

Vancouver, Wash., Aug. 5.—The habit of making his boy friends believe he was drowning when in danger, probably cost Herman Herbert, 12 years old, his life in the Columbia river. With several boys he was in swimming. They had been splashing around some time when an apple was thrown into the water, and they all tried to get it. When swimming back young Herbert threw up his hands and cried loudly for help, but little attention was paid to his plea. When it was realized that he was really drowning, it was too late to save him. His body was recovered.

The Salvation Army is at work in 47 different countries, and has 55 periods, printed in 21 languages.

These two lots are this week's arrival and they are exclusively shown by us.

SENATOR SAYS HE WAS OFFERED BRIBE

Name of Vice-President of U. S. is Dragged into Investigation in Oklahoma

Muskogee, Okla., Aug. 5.—The name of Vice-President James S. Sherman was dragged into the House committee investigating alleged offers of bribes in connection with legislation affecting Indian land contracts by Senator Gore yesterday. Gore also named Jacob Hamon, Oklahoma national committeeman, as one man who called upon him in regard to the matter.

Senator Gore testified before the committee in support of his charges that attempts had been made to bribe him to influence his vote in regard to killing certain legislation in the Senate. Hamon declared, according to Gore, that besides Congressman McGuire of Oklahoma and former Senator Curtis of Kansas, an official "higher up" was interested in the contracts. When pressed to name the official, Hamon said it was Vice-President Sherman, according to Gore's testimony.

Senator Gore then produced newspaper clippings purporting to show that Vice-President Sherman and ex-Senator Curtis had visited President Taft and recommended that the president should approve the contracts.

Gore testified that McMurray came to him in his office at Washington last winter and asked for his assistance in promoting legislation that would provide for the payment of attorney's fees of six per cent. on the Freeman land contracts with the Chickasaw and Choctaw Indians. This increase would have amounted to \$27,000. Gore testified that he answered McMurray's request by telling him that he was opposed to paying attorney's fees out of the Indian fund except where services actually were required and had actually been rendered. He also told McMurray of his hostility to individual contracts with the Indians calling for the payment of 10 per cent. of the proceeds of the sales of the segregated coal lands to the attorneys as fees.

It was because of his opposition to these schemes, Gore testified, that he was offered a bribe of \$50,000. The contracts involved were obtained by J. C. McMurray from 10,000 members of the Indian tribes, it is alleged. They contained options for the sale of 450,000 acres of Oklahoma land rich in coal and asphalt. Senator Gore alleges that the prices named in these contracts were far below the actual value of the lands and that the profit from the deal, which would have gone to the promoters, would have been close to \$15,000,000. He questions the validity of the contracts on the ground that the Indians were incapable of legally binding themselves without the approval of the government.

McMurray's attorneys in upholding the contracts, will allege that the Choctaw and Chickasaw as members of the "civilized tribes," may sign binding contracts. The investigating committee will visit McAlester, Oklahoma City and many other towns in this state.

Denial by Curtis. Topeka, Kas., Aug. 5.—United States Senator Curtis, when informed of the charges made by Senator Gore in connection with the McMurray Indian contracts, telegraphed members of the congressional committee at Muskogee, saying he was ready to testify at any time or place that would suit the convenience of the committee.

CHINESE MONETARY STANDARD.

Seattle, Wash., Aug. 5.—The Chinese empire, after an existence of 5,000 years is at last to have a monetary standard, with a currency of recognized value throughout the country, according to word brought by C. D. Tenny, secretary of languages in the United States legation at Peking, who has just arrived from the Orient.

The new currency is on a dollar and cents basis, superseding the ratio of half dollar, quarters and dimes. The currency issue has been assigned to the Imperial Chinese bank, which will issue tender under the direction of the central government, which will guarantee it.

A TIMELY TOPIC.

It would be a task of supererogation to undertake to instruct the merchants and business men of Victoria on the subject of advertising. They know more about it than we do, although they and we share, perhaps not always equally, in its profits, and in proportion as they realize its benefits do they increase their advertising. At the same time it may be well to point out that there is a mistaken idea, widely entertained, in regard to the benefits of publicity. Nearly everybody is willing to advertise, provided the advertising is free. Lawyers and doctors, and, let us whisper, even clergymen, have been known to slip an advertisement into many a newspaper on the sly. But in this matter there is reason to believe the world is becoming more frank and (shall we say it?) honest. It is more willing than it used to be to pay the medium through which alone effective publicity can be secured for the services it renders. Adopting this mid-summer subject for a discourse, the Toronto Star says: This is the admission of Rev. James W. Kramer. He is pastor of the First Baptist Church in Spokane:

I have drawn people to hear my sermons by advertising. I have attracted them with moving pictures, hot suppers, pink teas and flowers and flags. The church that does not advertise is behind the times, and is nursing empty pews. "Mr. Kramer means well, but he does not know much about advertising. There was a time when it was considered good policy for a boot and shoe merchant to attract attention to his advertisement by illustrating it with a picture of a beefsteak, or something equally foreign to his business. The butcher, on the other hand, would like as not pick out a boot as a suitable illustration, the idea apparently being to surprise the reader. The plan was a failure. The maxim of successful advertising to-day is this: Picture what you sell, quote prices on what you have in stock, be ready to back up your advertisement to the last letter.

"What Mr. Kramer has been advertising is not a church but a restaurant. If that is what he conducts, there is nothing more to say. But if he thinks to whet the public appetite for his sermons by advertising his pink teas, he is making a mistake. He is right, of course, in saying that the church which does not advertise is behind the times, but he errs in his definitions of advertising. Churches which find it profitable to advertise their picnic excursions and their bazaars and their lectures sometimes overlook the fact that it would pay them to advertise their regular services as well. The church which advertises its tea-meetings but gives no publicity to its weekly religious services cannot complain if the public concludes that in its tea-meetings lies the essence of its existence. It is advertising its notions rather than its staples. The progressive merchant advertises both."

DISHONEST AND MISCHIEVOUS JOURNALISM.

The Vancouver News-Advertiser has fallen from its high estate as a newspaper and a commentator on current events. It is now merely a far western edition of the Toronto Mail and Empire. It has degenerated into habits which have made that organ of Conservatism a laughing stock within its own party and an object of derision throughout Canada generally.

As we have already pointed out, our Vancouver contemporary is evidently annoyed at the triumphant progress of Sir Wilfrid Laurier through the western provinces of the Dominion. This annoyance has been aggravated to fury by the fact that there is so little in the speeches of the Prime Minister upon which legitimate criticism can be hung. All classes of the western country, Liberals and Conservatives and Independents, native born and foreign born, are joining in the demonstrations in honor of Sir Wilfrid, who has come west on a mission of inquiry. He is pursuing his investigations with characteristic patience, industry and assiduity. He is tolerant of opinion, although it may be adverse to his political and economic views. He is quite frank in giving expression to his own opinions, while admitting that the opinions of others are entitled to and will receive ample consideration. In the course of his tour he has delivered many speeches in defence of the general policy of the government, but at the same time frankly conceding that in some matters that policy has not been as advanced as he personally could desire. The interests of a people possessing half a continent as an inheritance must necessarily be diverse, but not necessarily antagonistic, and the policy of any government must be based to some extent upon a compromise between those various interests. Such is the sum of Sir Wilfrid Laurier's remarks, apart from his observations upon the position of Canada, within the Empire and the loyalty of all Canada's sons to the principle of local autonomy based upon Imperial unity. Upon these observations the News-Advertiser has pounced with an acerbity born of eastern bitterness and intolerance, torn portions of them away from their context as published in the Times, and upon this mutilated fragment makes the comment that the speeches of the Prime Minister "leave a great deal to be explained. The innuendo is of course plain. It is the old and discredited suggestion of disloyalty. We are not accustomed to such journalistic dishonesty in this part of Canada, except possibly during the heat and rancor of an election campaign. The ever-living comment of Dr. Johnson is specially pertinent to the conduct of the Vancouver Tory organ.

to collect his materials and apply them to the best advantage in finished marine products. Therefore the British shipowner is the common carrier of the world. He collects his toll for the world's service he performs. Various protectionist patented processes have been tried in the effort to "relegate the Britisher to his 'natural position' as the representative of a country of limited resources. They have all been devised in vain. The centre of the world's wealth and population remains in London, and it will never be changed as long as the methods adopted in the past in the hope of effecting the desired revolution are adhered to. But there are indications that the eyes of the protectionists are beginning to see the light, and there is a probability that the people of Great Britain may be persuaded to change their economic system just at a time when some of the other leading nations are beginning to perceive the folly of their past courses. Should the United States cut the bands of protection, or even relax them, then the day is not far distant when the supremacy of Britain in trade will be threatened and New York will have a chance to crow over her growth in population as compared with London.

The fact is further pointed out that the Canadian Northern Railway Company has four years in which to comply with the terms of its contract with the provincial government. But not four years from the present time. In any event we shall be perfectly satisfied if the lines of the company are constructed and in operation within four years. He shall give the company and the government the fullest credit for their diligence and good faith in the terms of the contract are met in spirit and not to the letter. And it may be well to point out that all obstacles to procuring the required supply of labor have now been removed. Railway laborers may be brought into Canada upon terms and conditions similar to the conditions under which farm labor can be procured. There is therefore no reason why in the course of a very short time both the Canadian Northern and the Grand Trunk Pacific Companies shall be in a position to get all the labor they require. That is, if the famine is not general.

GREATER LONDON AND BIGGER NEW YORK.

London the Greater is estimated to have a population of seven millions and a half. The people of New York are looking forward to the time when they will be more numerous than the Londoners. They have still to add a few to their numbers. Still there is a possibility that the New Yorkers will in time scale the summit of their ambitions. The Little Old Town has some advantages the Ancient Roman City does not possess. It is the centre of a nation of nearly ninety millions of souls. London has only forty millions behind it. On the other hand, the British city is the financial centre of the world. In the true sense of the term it is commercially cosmopolitan. It is the clearing-house of the earth. It is the miracle of the business world. It is the creation of a liberal, far-seeing economic system. As long as that system is maintained the rivals of London will have difficulty in ousting her from her unrivalled position of financial and commercial predominance. The wealth of the United Kingdom, which is largely centred in London, has been collected from the world at large. The marts of Europe, Asia, Africa and America make their daily contributions to the sum total. There are industries in America of vastly grander proportions than any single industry in Great Britain, with two exceptions—the ship building and the ship operating industries. In the business of building ships and operating them Great Britain has no real rival, nor can she have any while other nations pursue their policies of protection. This notwithstanding the fact that the raw materials which enter into the construction of ships are to be found in far greater abundance in countries which are striving to oust Great Britain from her position of industrial supremacy than they are in the United Kingdom. It is because there are no artificial restrictions upon trade between the British Isles and the rest of the world that the British shipbuilder is in a position

to collect his materials and apply them to the best advantage in finished marine products. Therefore the British shipowner is the common carrier of the world. He collects his toll for the world's service he performs. Various protectionist patented processes have been tried in the effort to "relegate the Britisher to his 'natural position' as the representative of a country of limited resources. They have all been devised in vain. The centre of the world's wealth and population remains in London, and it will never be changed as long as the methods adopted in the past in the hope of effecting the desired revolution are adhered to. But there are indications that the eyes of the protectionists are beginning to see the light, and there is a probability that the people of Great Britain may be persuaded to change their economic system just at a time when some of the other leading nations are beginning to perceive the folly of their past courses. Should the United States cut the bands of protection, or even relax them, then the day is not far distant when the supremacy of Britain in trade will be threatened and New York will have a chance to crow over her growth in population as compared with London.

The fact is further pointed out that the Canadian Northern Railway Company has four years in which to comply with the terms of its contract with the provincial government. But not four years from the present time. In any event we shall be perfectly satisfied if the lines of the company are constructed and in operation within four years. He shall give the company and the government the fullest credit for their diligence and good faith in the terms of the contract are met in spirit and not to the letter. And it may be well to point out that all obstacles to procuring the required supply of labor have now been removed. Railway laborers may be brought into Canada upon terms and conditions similar to the conditions under which farm labor can be procured. There is therefore no reason why in the course of a very short time both the Canadian Northern and the Grand Trunk Pacific Companies shall be in a position to get all the labor they require. That is, if the famine is not general.

The London Advertiser is more fortunate or more discriminating than the Victoria Times. It has evidently read some of the works of Mr. Frank Bullen, as it says: Mr. Frank Bullen, the noted writer of sea stories, who has been touring Canada, rightly says that Canada needs no educating in loyalty to the British flag, but he thinks "she becomes impatiently bewildered now and then at the vagaries of what used to be the great Liberal party in the British parliament." Mr. Bullen has not been observant if he imagines that Canadians are so worried as the Unionists over the success of the British Liberals. They think the empire is safe in the hands of either party, and they know more about British politics than some British partisans give them credit for.

The "trick question" will hardly ever appear again on school examination papers. Commenting on the results of the examinations in the province of Ontario, the Toronto Globe says: In making provisions for passing some of those into the High School who failed in one subject on the entrance examination, the Department of Education is doing the expected thing. Its responsibility, however, does not end there. The future policy as to the entrance standard and as to catch questions should be fully and clearly defined while this year's misfortune is fresh in the public mind.

It is not too early to make up your mind to attend and assist in every way in your power the annual exhibition. Secretary and Manager Sangster has the programme well in hand already, and as he is a practical and experienced hand at the business, there is an assurance that the show from every point of view will be the best and the most successful ever held on the island. At the same time, the exhibition is more the concern of us all than of one individual or the Agricultural Association, and all should cooperate to make it a success.

The death of Sir Henry Tichborne is announced. His name was rendered famous by the attempt of Arthur Orton to possess himself of the Tichborne estates, the trial of which suit attracted the attention of the world. Orton was exposed as a fraud and punished.

Captain Bernier is to try to find the Northwest passage and en route will claim for Canada any land lying about loose. The captain may yet chart a short summer resort route via McClure Straits around the northern end of the continent, and have the laugh on those who refuse to take him seriously.

The Mayor of Exeter has just set going in Exeter Cathedral an astronomical clock which has been erected on a stand of oak in the Speke Chantry of the Cathedral. This ancient timepiece, parts of which were made in 1377, has been for many years a conspicuous feature of the north transept. It was probably erected in Bishop Stapledon's time, and was originally in the nave. The use of the clock, as of other similar clocks at Wimborne, Wells and Gladstonbury, was to regulate the times of the various services, and for this purpose it was kept under the observation of watchers day and night. This clock is claimed to be the oldest astronomical example in England.

LOUIS YOUNG DIES BY BULLET WOUND

Found Dead in His Room at New England Hotel—Inquest Will Be Held

Louis Young, one of the proprietors of the New England restaurant, Government street, was found sitting in a chair in his bedroom this morning, clothed in his nightshirt, shot through the forehead. At his feet lay an old-fashioned army revolver. An inquest will be held. The late Mr. Young was 62 years of age, and for some months had been suffering from kidney and stomach trouble and indigestion. Two months ago he had a fall and was confined to the hospital, where he was under the care of Dr. Leader. He was injured just above the hip on the right side. He had complained frequently of insomnia and lack of appetite since his accident, but for many months had been in poor health. Michael Young and the deceased had just left prepared for a fishing excursion to take place in Lynn Canal, were to leave at 8 o'clock this morning. As the deceased did not come down to breakfast, his brother sent to his room and discovered he was dead. Owing to the absence of the city coroner, Dr. Hart, and the deputy coroner, Dr. Stanier, it will be necessary to swear in a deputy. Dr. Bapty will be sworn in to-day and the inquest will be held to-morrow.

PERSONAL: Among the Victoria passengers on the steamer Princess May, which was wrecked this morning in Lynn Canal, were: Mrs. and Mr. E. H. Hiscocks and two daughters, Misses Lizzie and Sophie, Mrs. Henderson, a sister of Mrs. Herbert Kent, and her son Marshall.

Mrs. A. A. Belbeck and daughter are visiting the Sound cities.

What Other People Think

COMPLAINS OF CAR SERVICE: To the Editor:—It is with regret that I am compelled to ask for a small space in your columns to lodge a complaint against the Beacon Hill tram service, which of late has not been up to the usual standard, particularly of late evening, when the oversight was very flagrant. Some seven intending passengers were waiting at the corner of Menzies and Niagara streets when the car (8.10 from the Hill), which should have been there, passed by without a stop of any kind. It seems almost impossible that the intention was deliberate, but as residents depend so much on car service these days they naturally take it for granted that stops will be made at the proper places to allow them to get on.

ROYAL ARCH TRIANGLE.

Toronto, Aug. 5.—The travelling triangle of solid gold which was sent out on its journey around the world by the St. Patrick's chapter, Royal Arch Masons, No. 145 Toronto, has been stalled for some time in Chicago. It has been in New York, Ohio, Michigan, Minneapolis and is now in Illinois awaiting a send-off. It will be brought back to Toronto, and sent east through other provinces and down the east coast of the United States, or across to England. The triangle will go to Montreal.

FINE DOLLARS.

Toronto, Aug. 5.—The result of information laid by Toronto Saturday Night the Auto Press Company was prosecuted in the police court this morning on the charge of failing to comply with the Ontario Companies Act. Evidence was given showing that on fifteen points the prospectus failed to comply with the requirements of the act. The company was fined \$100.

SUBMARINE UPHEAVAL.

Washington, D. C., Aug. 5.—Astounded by the spectacular performance of the seismograph at Georgetown yesterday to-day, Prof. Lorrdorf, the observer, states that a monster submarine upheaval occurred within 2,000 miles southeast of the national capital. Lorrdorf is of the opinion that the disturbance was accompanied by a tidal wave.

FINES FOR AIRMEN.

German Police Have Fixed Penalties for Flying Over Their Cities. Herr Frey, a young Wurtemberg airman, who electrified Berlin by flying over the town, is not tarrying to enjoy his newly won glory, but is hurrying off to Paris.

It is possible that his sudden departure is due to the fear that he may be fined for crossing Berlin in the air, for it appears that such feats are prohibited by the German police regulations. It came to light that Mr. Latham, who flew from the Tempelhof field to Johannisthal last autumn, was fined \$7 10s, and that M. Jeannin, the young Alsatian, who recently flew from Johannisthal to Glienicke, paid 50s for his misdemeanor. At the same rate M. Paulhan's "offence," if committed in Germany, would have cost him \$225.

The position of the police is that cross-country flights unduly endanger the security of the public in streets, highways and open places, and that aeroplanes which may at any moment drop unawares on the heads of pedestrians are as much a danger to the law-abiding community as the illicit carrying of firearms. The German Aerial Engineers' Society intends petitioning the Reichstag for legislation to remedy this state of things, as it is felt that the progress of German air-manship is materially obstructed by the existence of the present archaic laws.

One of the interesting features of Herr Frey's flight over Berlin is that the news of it was his mother's first intimation that her 25-year-old son was an airman. Designed to withstand earthquakes, the foundation of Mexico's \$6,000,000 national theatre, building at Mexico City, has shown themselves proof against several severe shocks.

Our August Furniture Sale Rolls Merrily Onward, Offering You Just as Good, if Not Better Values Than at the Opening Day

House furnishers with half an eye towards making a saving on furniture and carpets should keep in close touch with our daily announcements, for every day we are offering furniture, house furnishings, etc., at prices that are well worth your while investigating.

Music Cabinets, \$18.50 & \$13.75. If you have not got a place to keep your Sheet Music or Folios, don't delay in coming here to select one of these handsome pieces of furniture. Made of mahogany, richly polished, with mirror in door. These are being shown in our windows at \$18.50 and \$13.75.

Mahogany China Cabinets \$38.50. The usual price of this fine piece of furniture was \$56. It is made of mahogany, with glass shelves, and is lined with plush, beautifully polished. The minute you set eyes on it you will at once decide to have it in your home. Regular \$56. To-morrow at \$38.50.

Three-Piece Parlor Suite, \$52.90. You can still save money by keeping in close touch with our August Furniture Sale. This is shown by this offering. It is made of Birch mahogany, frames beautifully polished, spring seat and upholstered in silk brocade. Saturday at our Aug. Sale \$52.90.

Solid Oak Rockers for \$5.90. These can be had in either fumed or Early English finish. They are comfortable and pleasing in appearance. To-morrow you can make a substantial saving on these, as we think—in fact are sure—that these are the best values hereabouts. Regular \$7.50. To-morrow \$5.90.

Easy Chairs Reg \$47 for \$39.00. Nice and comfortable, one that will please you. That's the kind of a chair we are offering to-morrow. It is covered with an extra fine figured tapestry, and is extraordinary value at its regular price. To-morrow you may have it for \$39.00.

Tapestry Curtains, To-Morrow at \$2.90. \$2.90 is but a fraction of the real worth of these splendid Tapestry Curtains. They are extra heavy, in a number of very desirable shades, and of special value. Indeed they are worthy a special trip down town to take advantage of. To-morrow \$2.90.

Rockers That Give Real Comfort, \$2.90. There is nothing in the whole world that gives such ease to the body than a ROCKER, that is, if it is comfortable. The kind we are offering you to-morrow are just the kind you need. They are finished in mahogany finish. Roll seat. Special price \$2.90.

Extension Tables, To-Morrow, \$17. To-morrow's offering in DINING TABLES is one that will interest everybody. This one is a specially fine value, made of extra fine quarter-cut oak, in beautiful flaky effect and highly polished. To-morrow you may take this home for \$17.00.

Tapestry Carpet Squares to Sell Quickly at \$4.75, \$7.25 \$8.50. A splendid range of Tapestry Squares go on sale to-morrow at very special August Sale prices. These are in a number of very pretty and attractive designs and colorings. TAPESTRY SQUARES, sizes 3x2 1/4 yards \$4.75. TAPESTRY SQUARES, sizes 3x3 yards \$7.25. TAPESTRY SQUARES, sizes 3x4 yards \$8.50.

A Clearance of Ladies' Long Linen Coats. TO-MORROW NIGHT AT 7.30 \$3.75. Values from \$6.75 to \$10.75, for \$3.75. If you are in love with a fine Linen Coat, Saturday night gives you ample chance for choice from this assortment. We are going to clear out all of this lot at an extraordinary saving. A great many of these are trimmed with lace. Others are trimmed with contrasting shades of linen. The principle shades are blue, cerise, white and tan. The regular values were \$6.75, \$7.75 and \$10.75. To-morrow night at 7.30 you can choose one at \$3.75.

A Clearance of Ladies' Sateen Underskirts. REGULAR VALUES 75c AND 90c. 50c. 7.30 To-morrow night. Even if you don't need an Underskirt for immediate use, you will find it greatly to your advantage to purchase for future needs. The materials if bought by the yard, would cost more than 50c, but we are anxious to close out this line quickly. They are made of a good quality sateen in stripe blue and white effects. Also polka dot. Regular 75c and 90c. Saturday night at 7.30. 50c.

The Mantle Section Offers Two Exceptional Bargains for Saturday Evening Shoppers. Any lady wishing a Skirt or Long Linen Coat should be here sharp on time, as there will certainly be a rush for these.

Specials in ostrich leathers direct from manufacturers. Comparison respectfully invited; 22-inch, extra heavy fall plume, \$10; 28-inch, extra heavy full willow, \$15; extra good feather, \$5.50; also mounts. The Elite, 1316 Douglas.

D. D. Mann, vice-president of the Canadian Northern Railway, authorizing the announcement that T. J. Holt, of Vancouver, has been appointed to look after the interests of the company in British Columbia, and that an office in his charge will be opened in a few days. Mr. Holt is well known in Victoria, having been a frequent visitor here.

Two nests of eggs of game birds were found in the Oak Bay district last week. One of these contained sixteen quail eggs and the other ten pheasant eggs. This late nesting seems to be another argument in favor of not opening the shooting season early, for it will take a long time for the young birds to grow up so that they will be of any value to sportsmen.

From January 1 to July 31, the B. C. Electric Company carried on its local lines a total of 2,956,727 passengers, compared with 2,908,799 during the corresponding period of a year ago. The July traffic figures show a total of 474,684 passengers carried, compared with 517,267 for the same month last year. The decrease this year is accounted for by the fact that in July a year ago the sixty-day race meet was in progress, resulting in a great increase in the passenger traffic.

British Columbia is attracting the attention of German financiers, according to Baron von Bredow, and Baron Richofen, who are at present visiting the coast cities. Both already own property in the province, having acquired it through their agent, A. von Alvensleben, and their present visit is a combined business and pleasure one. The state that more German capital is likely to be invested here should the inducements meet with the approval of capitalists in that country.

The Man Who Thinks

The thoughtful man is the most thoughtless, that is he invariably forgets the little things. Some very brainy business men are so forgetful that their wives have to tie a string around their little finger to remind them to order things.

GOVERNMENT PREPARING FOR LAURIER'S VISIT

Public Reception to Great Canadian Statesman Will Be on a Magnificent Scale

Elaborate preparations are being made by the provincial government for the public reception to be tendered to Sir Wilfrid Laurier in the legislative chamber on the evening of August 17, and there is every promise that the function will prove one of the most brilliant in the history of western Canada.

For some days past a staff of expert electricians has been employed in stringing the hundreds of wires which will carry the incandescent lights to illuminate the entire front of the handsome pile. Some idea of the extent of this work and the beautiful effect when the buildings are illuminated will be gained when it is stated that no less than 6,500 lights will be utilized.

The interior decorations will also be of the most elaborate character. The visit of the distinguished statesman happily falls at a season of the year when it is possible to utilize flowers to any extent that may be deemed desirable—and full advantage is to be taken of this circumstance. An expert decorator has been commissioned to look after the adornment of the legislative chamber, where the reception will be held, and he has been given carte blanc in the matter of expense.

DECORATED BASKETS FOR FLOWER SHOW

Many Entries Already in for Best Classes, Thus Insuring Fine Exhibit

Already there are twenty-two entries for decorated baskets for the big flower show next week. There are also twenty entries for the decorated table competition. A good deal of interest is taken in the competition for girls under seventeen, the prize for which is being given by Mrs. MacLure. Particulars in regard to this may be obtained from Mrs. MacLure or the secretary.

Two other features of the show which are attracting a good deal of attention are the bowls of pansies, and the bowls of flowers of any other variety. These large masses of flowers have a fine effect, and the fact that entries have already been made in these lines assures the success of the show.

Mrs. H. R. Beaven has charge of the refreshment department. Tea will be served each afternoon and evening, and ice cream will be on sale. As the majority of those who attend the show remain to tea, great preparations are being made in this line.

ALD. HUMBER WILL RESIGN

(Continued from page 1.)

Faculty was experienced by the engineering department and it was suggested that as I had for so long allowed the city to use the Humber to quash the conviction because the depositions of the witnesses were not read by the magistrate to the accused before the latter entered the witness box in his own behalf is refused. His Lordship holding that the magistrate is relieved from this duty under section 78 of the criminal code. While the conviction cannot be questioned, His Lordship is of opinion that magistrates are adopting a good practice when they take depositions as provided by section 68 of the code, reading them over to the accused and dispensing with the signature only when necessary.

CONVICTION IS UPHOLD

Judgment has been given by Mr. Justice Irving in the case of Rex vs. Klein, upholding the conviction of the defendant. The application of George Morphy to quash the conviction because the depositions of the witnesses were not read by the magistrate to the accused before the latter entered the witness box in his own behalf is refused. His Lordship holding that the magistrate is relieved from this duty under section 78 of the criminal code. While the conviction cannot be questioned, His Lordship is of opinion that magistrates are adopting a good practice when they take depositions as provided by section 68 of the code, reading them over to the accused and dispensing with the signature only when necessary.

WEATHER BULLETIN

Daily Report Furnished by the Victoria, Meteorological Department.

Victoria, Aug. 5.—5 a. m.—The barometric pressure continues to be high on the American coast; showers continue at Ketchikan and in Western Washington, but fine, warm weather is general. In the prairie provinces rain has fallen in Alberta, and a thunderstorm occurred at Calgary, but in other districts the weather is fine and warm.

Forecasts:
For 24 hours ending 5 p. m. Saturday, Victoria and vicinity—Moderate to fresh southerly and westerly winds, fair to-day and Saturday.
Lower Mainland—Light to moderate winds, fair to-day and Saturday.
Observations at 5 a. m.
Victoria—Barometer, 30.15; temperature, 52; minimum, 52; wind, 12 miles S. W.; weather, part cloudy.
New Westminster—Barometer, 30.16; temperature, 56; minimum, 54; wind, 4 miles E.; weather, cloudy.
Kamloops—Barometer, 30.04; temperature, 54; minimum, 54; wind, 4 miles W.; rain, .20; weather, cloudy.
San Francisco—Barometer, 29.92; temperature, 52; minimum, 50; wind, 4 miles W.; weather, clear.
Edmonton—Barometer, 29.84; temperature, 54; minimum, 54; wind, calm; weather, clear.
Winnipeg—Barometer, 30.10; temperature, 56; minimum, 46; wind, 4 miles S.; weather, clear.

Victoria Daily Weather.
Observations taken 5 a. m., noon and 5 p. m. Thursday:
Highest 68
Lowest 54
Average 61
Bright sunshine, 11 hours 54 minutes.
General state of weather, fair.

CLOSE CALL FOR B. P. SCHWENGER'S

CARDINAL GIVES HIM BEST GAME OF YEARS

Finals in Provincial Tennis Tournament To-morrow Afternoon at Victoria Courts

Six to one against Schwengers. It was believed impossible by the tennis critics that there was a player in the province who could play a match set against B. P. Schwengers and come out with the score five ahead of the holder of the inland championship...

The final went to 3-1 in favor of the Vancouver man and the finish of the last and deciding set raised the spectators to the highest pitch of excitement. Schwengers played a net game but had to give it up for Cardinal was particularly good at placing his returns at the sides and back of the court.

Gilliat, of Vancouver, was beaten by Marshall in a three-set match and this winner will play Ryal to-day. The winner of these latter two will play the winner of C. and B. Schwengers.

The match between C. and B. Schwengers is the first in which these players have got into the finals against each other. In previous tournaments, it has happened that the champion's brother had the bad luck of the draw, but this time he gets his wish to meet his brother in the finals, and the winner of the Schwengers match plays the winner of the Marshall-Ryal match for the honor of playing Tyler to-morrow for the championship.

Miss Pitts and Miss V. Pooley are in the ladies' singles, both players winning their matches yesterday. Miss Pearce and Mrs. Holland are also in the final ranking in the ladies' event, which will be narrowed down this afternoon as the four ladies are engaged in the singles.

Miss Pitts and Miss Pooley are in the ladies' doubles and look like the championship winners in this event. The interest in the tournament is greater than at any previous one. The programme of late matches to-night is as follows:

5 P. M. Winner of Hepburn and Miss Pearce and Marshall and Miss M. Pitts vs. winner of Matterson and Mrs. Langley and Whyte and Mrs. Genge; winner of Burns vs. Cornwall vs. Cambie.

5:45 P. M. Miss M. Pitts and Miss V. Pooley vs. ...

WATSON'S NO. 10 Scotch Whisky

Distilled in the Highlands of Scotland from pure Scotch Barley Malt.

Insist on "WATSON'S"

Canadian representative, J. H. Bonas, 15 Hospital St., Montreal, Que.

Miss Hobson and Miss Allen. The results of yesterday's matches are as follows: Men's Singles. C. Schwengers beat A. M. McCallum, 3-4, 6-1. C. Schwengers beat Rhodes, Vancouver, 6-4, 6-2. B. P. Schwengers beat Cardinal, Vancouver, 5-2, 1-6, 7-5. Ryal beat S. Gillespie, 6-3, 6-2. Ryal beat A. Martin by default. Gilliat beat Jephson, 6-4, 6-4. F. J. Marshall, Victoria, beat Gilliat, 6-4, 7-5, 8-6. A. Martin beat E. Dewdney, 3-6, 6-3, 6-2.

Men's Doubles. Schwengers and Cambie beat Dickson and Lowry, 6-3, 6-2. Gilliat and Jukes beat Keefer and Kirkbride, 6-3, 6-2. Cardinal and D. S. Montgomery, Vancouver, beat Matterson and N. Montgomery, 6-1, 6-2. Tyler and Macrae beat Capt. Crawford and Whyte, 8-6, 6-4.

Mixed Doubles. Hepburn and Miss Pearce beat D'Arcy and Miss Little, 6-1, 6-2. Marshall and Miss M. Pitts beat Ryal and Miss Robertson, 6-2, 6-2. Matterson and Miss Langley beat Dewdney and Miss Haynes, 6-1, 6-2. Kirkbride and Miss M. Bell beat Rev. Ryal and Miss Robertson, 6-0, 6-1.

Whyte and Mrs. Genge beat D. S. Montgomery and Miss Jukes, 6-4, 6-3. Whyte and Mrs. Genge beat Kirkbride and Miss M. Bell, 6-2, 5-7, 8-6. Cardinal and Miss Allen beat McLorg and Miss Baker, 6-2, 6-2. Cardinal and Miss Allen beat Rhodes and Mrs. Proctor, 9-7, 6-2. Crawford and Miss Pitts beat Guggenbuhl and Miss Robertson, 6-2, 6-2.

TO-MORROW'S SPORT

Tennis. Final of the B. C. championships at the Cadboro Bay road courts at 2 p. m. to-morrow.

Baseball. Victoria against Seattle and Beacon Hill against Empress at the Royal Park. First game at 2:30.

Cricket. Victoria plays Burrard at the Hospital, commencing at 10:30. Albions v. Colwood. Albions v. Saanich at Beacon Hill.

Lacrosse. Victoria at Vancouver in the Kilmarnock Cup series.

Swimming. Second half of B. C. swimming championships at the Gorge.

Ladies' Singles. Miss M. Pitts beat Miss M. Baker, 6-0, 5-6. Miss Hobson beat Miss M. Bell, 6-4, 6-2. Miss A. Bell beat Miss G. Pitts, 6-0, 6-2.

Ladies' Doubles. Miss Haynes and Miss Phillips beat Mrs. Langley and Miss B. Bell, 6-2, 6-2. Mrs. Genge and Mrs. Robertson beat Mrs. Marritt and Miss Tupper, 6-2, 6-1. Miss M. Pitts and Miss Pooley beat Mrs. Genge and Miss Pitts, 6-1, 6-2.

Men's Singles (Consolation.) Eberts beat Lampman, 6-2, 6-4. Rithet beat Pitts, 6-2, 6-2. B. G. Goward beat Marritt, 6-4, 2-6, 6-2. E. S. Montgomery beat T. D. Dewar, 6-5, 6-2.

Mixed Doubles. Cambie beat Keefer by default. Burns beat S. Powell, 3-6, 6-4, 7-5. Cornwall beat Hewittson, 6-2, 6-4.

GAME COMMITTEE HANDS IN REQUEST

The committee of the Fish and Game Club appointed Tuesday night to wait on the attorney-general with a resolution that the executive council extend the close season until October 1 this year, waited on the attorney-general yesterday afternoon at 2:30.

The attorney-general heard the delegation and promised a reply would be given after the matter had been taken under consideration.

PROGRAMME OF THE SWIMMING EVENTS

Second Half of Championships to Be Held To-morrow at Gorge—Vancouver Entries Coming

The following is the programme of events to be contested to-morrow afternoon at the Gorge by the competitors in the second half of the B. C. swimming championships. The events will start at 2 o'clock. Vancouver will send its best swimmers, those who won last Saturday, and the local entries will close to-night.

Championships. Fifty yards. Two hundred and twenty yards. Half mile. Diving competition. Life-saving competition. Junior 100 yards under 18. Ladies' 100 yard championship. Extras. Upset canoe, 2 men. Wash tub race. Greasy pole.

SIX TEAMS TO PLAY CRICKET TO-MORROW

There are three cricket matches set for to-morrow on the local grounds. The Victoria Cricket Club will play the Burrard eleven at the Hospital cricket ground, commencing to-morrow morning at 10:30 a. m. The match will continue all-day with intervals for lunch and afternoon tea.

A Colwood eleven will play a match against one of the Albion teams, and at Beacon Hill the Albions will meet the Strawberry Vale team. The team to represent Victoria against the Burrard cricket team will be: L. E. V. York, J. W. D. York, A. Martin, T. B. Tye, J. H. Gillespie, J. C. Barnacle, L. Lowry, F. Gallier, C. Coates, N. M. Cane, Thomas.

LACROSSE NOTES

The Victoria West and North Ward teams line up to-night at the North Ward park for the intermediate lacrosse game, ordered replayed by the committee. The match will start at 6:15.

A MIDSUMMER Saturday Special 3-Piece Suits Up to \$25 Must Be Cleared on Saturday at \$15.00

It is unreasonable for us to expect a man to pay the regular price when buying a summer suit at this time. But when you can save from \$8 to \$10 on your purchase it's a matter worth considering. The patterns are not too light in color—in fact the majority of them can be worn the season through. You know our reputation for handling Smart, Reliable Clothing, made in the season's correct style, which is a feature in the suits offered at this

Big Midsummer Saturday Sale New Neckwear on Display

The newest creations in Men's Neckwear from Welch, Margetson & Co., of London, have arrived. The quality of these goods is unquestionable and the patterns are the smartest to be found. Prices range from 50¢ to \$1.50. SEE THEM IN THE WINDOWS TO-NIGHT.

Our Stetson Hats In the New Fall shapes have arrived and will stand inspection of critical eyes because they are correct in styles. Prices \$4, \$4.50 and \$5.00

FITZPATRICK & O'CONNELL Clothiers and Hatters 811-813 Govt. St. Op. P. O.

22 Calibre Rifles HAVE YOU SEEN OUR ASSORTMENT OF VACATION RIFLES? Properly priced Rifles in Stevens, Winchester or Hopkins & Allen designs. Single shot and Repeating Rifles. GUNS, AMMUNITION AND SHOOTING SUPPLIES. Victoria Sporting Goods Company, 1307 Douglas St., at Yates. Clarence V. McConnell, John P. Sweeney.

committee. The match will start at 6:15. Purdy, who plays on the Victoria West team to-night, is also on the senior team that plays at Vancouver to-morrow afternoon. He plays inside home on both teams. Vancouver lacrosse twelve comes to the Capital City one week from to-morrow to play the locals. The match at Vancouver to-morrow will decide Victoria's chance of getting in the cup running. Tommy Gifford will play on the Westminster team again on Saturday. Victoria twelve will probably see the Vancouverians play the Royals. It is proposed to make a double-header of it at Recreation park, putting on the amateur game first. Monday night Cloverdale and Victoria West teams meet at the Royal Athletic park in the Victoria lacrosse league. There are only two more games to play. There are not less than 500 women doctors in France. Many of them have a lucrative practice.

THORPE'S SODA WATER Made From Water From Which All Germs Have Been Removed. NORTHWESTERN BASEBALL LEAGUE SCHEDULE AT SEATTLE: Aug. 2, 3, 4, 5, 6, 7, Sept. 20, 21, 22, 23, 24, 25. WATER COMMITTEE TO VISIT GOLDSTREAM

(Continued from page 1.)

By the use of a number of wall maps, Mr. Shallcross explained very fully the character of the Esquimalt Water Company's system at Goldstream, which he had personally inspected before drawing up the report. It was in 1892 that the company had first commenced the work of developing the system of lakes and dams; these latter are so arranged that the outflow can be regulated by opening or closing the gates. Before the water reached the final reservoir, from which it went to the service pipes, it fell in a series of cascades and this would have a purifying effect on it. Lakes with a capacity of 600 million gallons had been added since Mr. Adams made his report as to the capacity of Goldstream. The watershed had a total area of 12,180 acres; there are five reservoirs with a holding capacity of 2,926 million gallons—an amount capable of giving a supply of 18 million gallons for 300 days in the year. This would be, say, from the beginning of May until the end of October, practically the summer season. Mr. Shallcross had inspected the lakes and ditches very closely and found them as clean as a porcelain plate. They were also entirely free of scum. One of the maps to which Mr. Shallcross directed attention was colored to show the area which the Esquimalt company is supplying at present. In his opinion this area, by no great stretch of the imagination, might easily have a population of 50,000 within the next ten years. It was therefore vital that the city should be placed in a position to supply water to that section of the city.

Another map showed the large area

on the lower part of the Island which the Esquimalt company, by the latest act of the legislature, had the franchise to supply water to. The company was given the right to supply water to Malahat and Goldstream districts besides Esquimalt and Victoria West.

Mr. Shallcross next directed attention to the amount of revenue which would be derived by the city should it take over the Goldstream works. In regard to the contract which the company had with the B. C. Electric railway he wished to ask that the city solicitor be instructed to give an opinion as to whether the city would acquire all the rights in the contract now enjoyed by the Esquimalt company. Then, as to the Jordan river bylaw, which had been passed last year. The city should be informed whether under that bylaw it may not sell water to anybody for any purpose. In Mr. Shallcross' opinion the city might do so. He would also like to have the opinion of E. P. Davis, K. C., on these two points.

James L. Raymur, water commissioner, explained that the city was already in possession of a joint opinion on these points from W. J. Taylor, K. C.; E. V. Bodwell, K. C., and Mr. Davis.

Mr. Shallcross, continuing, drew attention to the superior class of pipes which the Esquimalt company was laying over those recommended by Mr. Adams if the city decided to go to Sooke. The Esquimalt company's pipes had no rivets but were tightly "nested."

Would Accept Award. Another important point to which Mr. Shallcross directed attention was that he had ascertained from Mr. Lubbe that in the event of expropriation proceedings being commenced by the city the company would accept the award of the arbitrators as final. Should the city decide to acquire Goldstream the water could be made available to the people of Victoria next summer, as it would be possible to fill Smith's Hill reservoir without impairing the supply at Goldstream.

Concluding, Mr. Shallcross suggested that the city council should arrange to take every member of the committee out to Goldstream on Saturday. The president and two members of the board of trade, and the president and two members of the trades and labor council should also be invited to join the party.

Mayor Morley expressed the opinion that nothing could be gained by visiting Goldstream at this season of the year. They should wait until the end of the dry season.

Anton Henderson, the champion of the Sooke Lake proposition and a member of the committee which had been appointed to gather further information as to the suitability of Sooke as a source of supply, replied to Mr. Shallcross' argument. He contended that the latter had failed to state all the facts in respect to the cleanliness of the lakes and ditches at Goldstream. The entire area of the lakes at Goldstream was 500 acres; that of Elk Lake 600 acres—thus there was more water in the latter, which had a greater holding capacity. Going to the maps on the wall, Mr. Henderson explained to the committee that he had visited all the lakes at Goldstream in August of last year and found them far from clean. They were in some places full

of stumps and peat. The ditch system had been praised at Goldstream, but when it was proposed to utilize the same system at Sooke it was condemned. This was a trifle illogical.

Mr. Shallcross, in reply, said the whole question for the committee to consider in connection with the quality of the water at Goldstream was: Has the water been so treated as to make it pure and palatable? The best experts had repeatedly testified as to its purity. While it was true that the area of the lake system at Goldstream was less than that of Elk lake, he would defy Ald. Henderson to draw 15,000,000 gallons per day from the latter source. The rainfall and watershed at Goldstream were both greater than at Elk lake. The rainfall was 30 inches at Elk lake and 55 at Goldstream. The latter had also four times the watershed. At times the Esquimalt company was delivering 18,000,000 gallons per day at the power house.

Christian Sivertz, on general grounds, supported the proposition that Goldstream should be acquired by expropriation.

W. A. Gleason thought it vital that the city solicitor should be asked if the contract between the B. C. Electric and the Esquimalt company would be binding on the city if the works were acquired. Especially should this be considered in relation to the by-law passed last year. Then as to the terms of the expropriation, an attempt should be made to ascertain what figure would probably be the award of the arbitrators.

Mr. Raymur doubted whether the city would be given access to the company's books, and the information could hardly be got in any other way.

Mayor Morley believed that the company would open its books if requested to do so. Continuing, his worship expressed an opinion that if the company had expressed a willingness to accept the award of the arbitrator as final it might be taken as a certainty that they had come to the conclusion that they would not get less than the figure they had offered to sell for.

Ald. Bannerman felt sure that public opinion was favorable to expropriation rather than direct purchase.

Charles Hayward regretted that the committee was not making greater progress. He thought it useless to attempt to compute what would be the award of the arbitrators. He also regretted that the final report of the special committee on Sooke was not available.

A resolution was then passed to have the city solicitor advise the board as to what would be the rights of the city in regard to the contract between the Esquimalt and B. C. Electric companies in the event of a purchase by the city.

Another resolution proposed that the committee should proceed to Goldstream on Saturday of next week and inspect the works.

Mayor Morley remarked that the citizens had as much right to go and inspect the works as the members of the committee.

Ald. Sargison—Why did you appoint the committee then?
Mayor Morley—The committee was to advise on questions of policy and leave the experts to inspect the lakes and works.

(Concluded on page 3.)

The Misses Mary and Jean Hamilton are visiting Mrs. Lewis Hall, Victoria West.

Mrs. Walter Drew, Tacoma, is visiting her daughter, Mrs. Andrews, at the Willows.

Mr. and Mrs. W. G. McLaren left yesterday on a three months' trip to Toronto.

Ralph Smith, M. P., Nanaimo, is in the city and is registered at the Empress hotel.

F. M. Bell-Smith, R. C. A., Toronto, is on his annual visit to the city and is at the Balmoral.

After spending their honeymoon in Victoria Mr. and Mrs. Percy Smith left for Vancouver yesterday.

Mr. and Mrs. Robert Duncan, Blackburn, England, have arrived in the city and intend to settle here.

Dr. R. L. Fraser, wife and family returned yesterday afternoon from Seattle, where they have been spending several days on a pleasure jaunt.

Mrs. A. E. Loring, wife of the government agent at Hazelton, and Mrs. Boyd, wife of the factor for the Hudson Bay Company at that point, are visiting Victoria.

Arthur H. Rogers, New Westminster, who has been spending the past few days in town, is leaving on Saturday on a month's holiday visit to Cowichan and neighborhood.

Mr. and Mrs. Henry Washington, Peterborough, England, who have been touring Canada, and at present are spending a few days in town, are leaving shortly for home.

The engagement of Miss Mary Currie, Boston, daughter of Mr. and Mrs. William Currie, Victoria, to Mr. H. Brentford, of Brighton, England, is announced. Mr. Brentford is at present visiting Victoria.

The Guelph Herald contains the following announcement of interest here: One of the charming matrimonial events of the season was solemnized Wednesday, July 28th, at 5 o'clock p. m., at the home of Mr. and Mrs. Joseph Carter, 120 Suffolk street, when Miss Ella Jean Martin, F. T. C. M., only daughter of Mr. E. Winton Clarke, B. A., of the Collegiate Institute staff, Victoria, B. C., and son of Mr. and Mrs. J. E. Clarke of that city, Rev. Thomas Davidson, B. A., of Orillia, a college friend of the bridegroom, was the officiating minister. The bride was gowned in a handsome and most becoming silk costume with rich lace and gold trimmings and was brought in and given away by her stepfather. She carried a bouquet of roses, which, with a diamond ring, were gifts of the bridegroom. Miss Anna Beattie, as flower girl, looked like a little fairy in a white embroidered dress and carried the ring in a basket of pink and white sweet peas. As the bride entered the drawing room Miss Vera Barber played the bridal chorus from Lohengrin; celled by the bride, consisting of cut glass, fine china, silver, brasses, pictures, lovely needle work, linen and substantial cheques, none will be more highly valued than a case of pearl handled knives and forks, a gift from the Congregational church choir, where the bride has been organist for a number of years. The happy couple left for a short trip to Toronto and Niagara before leaving for their home in Victoria, B. C. The bride went away in a navy blue dress, long silk repp coat with black trimmings, and leghorn hat with black facing and trimmed with pink roses.

The Evening Chit-Chat

BY RUTH CAMERON

When the first peek-a-boo waists began to appear last spring I found the usual crop of masculine tresses against them in the magazines and newspapers.

Some were on the grounds of morality, but several were on the grounds of health. Think of that from a man. I shouldn't think they'd dare!

Why do I say that? Well, I'll tell you why. Ask any doctor if it isn't just as unhealthy to be too heavily dressed as too lightly and see what he says.

How any man would dare to protest against the wearing of unduly thin clothes in spring when he himself offends nature and common sense every bit as much by wearing such absurdly thick clothes in summer is more than I can understand.

I was out on the street with a man on a very hot day recently. Coats and in my sheers gown I was fairly suffocated by the heat.

What must he have suffered in a shirt about the thickness of my winter shirtwaists and a coat quite as heavy as what many women wear in January?

Several years ago, as perhaps you may remember, a crusade was started to make it proper for men to appear in their places of business and on the streets without their coats.

Unfortunately it was a good opportunity for ridicule and men can never endure ridicule. Talk about women being convention bound. Anyone with any common sense at all knows that women aren't a circumstance to men in that particular.

As you doubtless remember, caricatures and the name "the shirtwaist man" frightened most men away from this move towards common sense, and the movement died. Now it doesn't seem to me it would have, despite men's cowardice, if women had given their enthusiastic support, and I wish another one could be started and have the thorough backing of my sex.

Now don't you don't approve of any such movement because you think it looks horrid to see a man on the street without his coat. There is nothing that you have any reason to object to in a man wearing a negligee shirt. It is simply because it is an unaccustomed sight and not in any way an objectionable one that you feel that way about it.

I wish every girl who reads this would say to her father or brothers or men friends the next time she sees any of them obviously suffering from the heat, "Why don't you take off your coat? I think it looks all right."

Yes, probably they will look horrid or laugh at you the first time.

But if enough girls say it to them enough times they will probably begin to consider the matter!

Yes, of course, it would take years, maybe a generation or two to get men to do such a tremendously radical thing as to take off their coats.

But if it made them sweeter tempered and more reasonable—and of course anything that added so much to their comfort would do that—don't

Another New Shipment of Biscuits

We have just received and opened up a new shipment of CARR'S FAMOUS BISCUITS. These are fresh, crisp and delicious.

CANADIAN FRUIT FOR BRITAIN

TRADE COMMISSIONER TELLS OF POSSIBILITIES

Fine Opening for Tender Varieties—Canned Fruit Should Oust Californian

The possibility of developing a flourishing trade between Canada and England, especially the Midlands, in tender fruits, and of extending greatly that in canned fruits, is pointed out in an interview the Globe has had with W. A. MacKinnon, Canadian trade commissioner at Birmingham.

Mr. MacKinnon, who, by the way, is a Brampton boy, and a graduate of Parkdale Collegiate Institute in this city, of the University of Toronto, and of Osgoode Hall, has been for a little more than a year at Birmingham, his district including the Midlands and Wales. Prior to that he was for five years at Bristol. His present location is a busier manufacturing town, and there are fewer there who have direct trade connection with Canada. For four years before his appointment as trade commissioner he was chief of the fruit division in the department of agriculture at Ottawa.

The tender fruit business now carried on with Great Britain is done mainly through Liverpool and Glasgow, but this year, owing to the

starting of the Royal Line, with cold storage facilities specially for this trade, is going to be done direct through Bristol for the south and inland counties. Hitherto, no peaches or pears could be sent there direct, but it is expected that now a large trade will spring up in those and other tender varieties.

One firm Mr. MacKinnon told of, the Biggs Fruit & Produce Co., of Burlington, is the pioneer in the business of shipping small packages of apples and pears, neatly boxed, with the sender's card, as Christmas presents to any address in England. He thinks many more might enter this line of trade, and find it profitable. This firm is also launching out in the tender fruit trade, handling peaches and pears. The Elberta peach is found especially suitable for export, being of good size, of very fair quality, and carrying better than any other variety so far tried, though the business may extend to other kinds. One shipment sent to Mr. MacKinnon arrived in very good condition. It has been announced that the government contemplates sending some trial shipments this year. Some firms around Grimsby and St. Catharines are intending to enter this market alone.

The canned fruit market is also in prospect of considerable development in the near future. "Why," asked Mr. MacKinnon, "should not Canadians take their place in competition with Americans in the canned fruit trade? And their place is not on a par with them, but away above them, for the quality of the Niagara peaches and other fruits is much superior to that of the California products, beautiful as the latter look, and temptingly as they are put up."

The commissioner said that he was very glad to be able to tell Hon. Sydney Fisher, minister of agriculture,

who was a fellow-passenger with him on the voyage over, something that had been volunteered to him again and again, that the packing of Canadian apples has been immensely improved during the years since the fruit marks act was introduced.

Not only in the lines mentioned is there a good outlook for trade with Canada, but in manufactured articles also. A feature of the past two years has been the remarkable increase in Canadian trade, both imports and exports. There has been a great increase in the number of inquiries made about it, and in the extent to which the trade commissioners' offices are being used by the Canadian mercantile and industrial public.

Mr. MacKinnon has been investigating the fish trade lately, and was told with reference to a certain British Columbia firm of salmon exporters, that they are the best packers in America, their goods being perfectly graded, clean, and uniform in quality. He has heard no complaints this year about the Canadian dairy produce, and the same might almost be said about the Canadian fruit.

In other directions there is an awakened interest in Canadian trade and in the value of this market to Great Britain's manufacturers. The people are acting on the advice given by King George in a speech when Prince of Wales, "Wake up, England!" And they are sending out not their travellers alone, but the principals of their houses, to study the market. They are not going, says Mr. MacKinnon, to let Germany have all her own way, even now that the surtax is removed.

A keel that can be drawn up while navigating shallow waters and quickly lowered to provide stability in deeper seas is planned for river and ocean going vessels by a Mr. Leslie.

WATER COMMITTEE TO VISIT GOLDSTREAM

(Continued from page 7.)

Simon Leiser—You would like to take the whole city out. Are the members of this committee not to be trusted to make a truthful report to the people.

Mr. Todd—Bring Goldstream in. (Laughter.)

Mr. Leiser insisted that the committee should go out and see the works. They could form a pretty good idea of the value of the holdings of the company. Goldstream should be bought if it could be bought right.

Mayor Morley—I agree with you—if we can buy it right we should take it. The resolution to visit Goldstream then passed.

Mr. Meston, on behalf of the sub-committee, composed of himself, Mr. Henderson and Ald. Fullerton, next read a voluminous report as to the merits of the Sooke Lake proposition. A comparison was made with Goldstream, and the disadvantage of the latter, and the suggestion was made that some members of the committee and some of the experts who had reported on Sooke were biased in their judgment. It was decided to have copies of both reports printed for the convenience of the members of the committee and the meeting adjourned to the call of the chair.

There were present Mayor Morley, Aldermen Hansmann, Fullerton, Bishop, Charles Hayward, C. E. Todd, W. A. Gleason, J. J. Shallocross, John Meston, Christian Sivert, C. A. McEachern, Anton Henderson, Simon Leiser, Andrew Gray and F. Andrews.

IN POLICE COURT

Hugh Colwell, livery stable proprietor, paid a \$10 fine in the police court this morning for his driver, who was fined for leaving his tally-ho on Belleville street, without having the horses secured.

The driver, the owner and a witness named Spiker gave evidence that the driver, on leaving his rig, gave the lines to a lady on the front seat, and that he did not move more than a foot from the wheel. The evidence for the prosecution was given by Constable Fry.

A charge against L. B. Quagliotti, of allowing thieves to grow on his property on Michigan street, fell to the ground because the property is not owned by L. J. Quagliotti. The lot in question is owned by the Rossi estate, of which Mrs. Quagliotti is a principal legatee. J. A. Aikman appeared for the defence.

The man Jones, held for vagrancy, was allowed to go this morning. The information was withdrawn, as the immigration authorities had arranged to have the man deported to the United States. He was released and immediately taken into custody again for deportation.

Le Bong, a Chinese, appeared in answer to a charge of placing building material on the street and was set over until to-morrow. J. A. Aikman represented him.

THE REFORM HE NEEDED.

CAPTAIN SCOTT SETS DATE FOR SOUTH POLE

On Dec. 22, 1911, the Sun Will Be at Its Maximum Altitude

December 22, 1911, has been fixed by Captain Scott as the date on which he intends, if possible, to plant the British flag on the South Pole.

Every detail of the voyage and subsequent march over the ice (so far as such matters can be arranged beforehand) has been mapped out, and all dates fixed, and these Captain Scott mentioned in the course of a recent lecture at the Royal Institution at London. He said, however, he was too familiar with the unexpected happenings on such a venture to suppose that plans could be exactly and even closely followed, and he did not wish it to be supposed that he had failed to contemplate the possibility of circumstances that might upset some of his calculations.

Hitherto, said Captain Scott, it had been the custom for expeditions to sail to the south in the latter end of December, as it had been thought impossible to penetrate the ice pack at an earlier date, but the Terra Nova would try to secure the advantage of penetrating it at an earlier date, and he proposed, therefore, to leave New Zealand towards the end of November, and hoped to reach McMurdo Sound towards the end of December.

There the western party of twenty-two to twenty-five, including himself, would be landed, and as soon as a winter station had been established the greater number would proceed to

the south to lay depots. He thought it would be possible to start this party off not later than the third week in January, when sixty or seventy days remained for travelling. The Terra Nova in the meantime would have proceeded eastward to the region of King Edward's Land, which should be reached before the end of January, or very early in February, and there six men would be landed if a suitable spot could be found for wintering, and would be left to face the winter in one of the most inhospitable parts of the Antarctic regions.

The western party, he hoped, in the meantime, would have established depots well south of the barrier, and during the winter preparations would be made for the great effort to reach the Pole. "We know," he said, "that the first phase of the journey must be over the plateau, and the great barrier; the second to climb through the mountain passes; and the third to traverse a lofty inland plain in climatic conditions not equalled anywhere else in the world."

Captain Scott stated he did not propose to start on the southern journey until the month of October. That month would be occupied in traversing the barrier and ascending the plateau fairly early in December, and the ideal day for reaching the South pole would be December 22nd, when the sun reached its maximum altitude.

FIDO'S EXERCISE
"Fido," said Mrs. Wynn.
"Yes," replied Mr. Wynn.
"Will you speak a kind word to Fido, and make it clear he isn't? He hasn't had one bit of exercise all day."—Scraps.

A French scientist has figured out that the nervous system is capable of perceiving only about ten impressions a second, separated by periods of inertia.

"Iced" Tea How to Make It

Use about one-quarter more of the dry leaf than you would when making tea to be served hot. Pour on boiling water and allow tea to steep five minutes (all the good can be extracted in that time). Pour off the tea into another vessel and allow it to cool gradually.

Don'ts

Don't pour hot tea on ice. If you do its delicious flavor will be dissipated. Don't put hot tea in the refrigerator to cool. If you do it will spoil in short order.

Ask your grocer for "Salada" Tea or send for a free trial package. We mail it without charge. Say whether you use Black, Mixed or Green Tea and the price you pay per pound.

BIG FREE-MILLING GOLD PROPOSITIONS

C. G. Van Hook and W. S. Matthews, of Vancouver, are in the city in connection with the floating of a company to operate what is alleged to be the biggest free-milling gold proposition on the continent.

The property is situated thirty-five miles from tide-water on Cook Inlet, Alaska, near the Cliff mine, which is said to be producing a revenue of \$1,000 and is stated to consist of two ledges of free-milling gold of almost fabulous value. Mr. Van Hook stated to-day that reports had been made on the property by J. W. Hamilton, the well-known mining engineer, and Frank Watson, manager of the Matanuska coal properties in Alaska, which say that two reefs, one over 9 feet wide and a smaller one slightly over 14 inches wide, exist on the claims. Assays varying only 50 cents in value have been made, the average being \$352 to the ton on the more valuable reef.

Several Victorians have been interested in the company, which is capitalized at \$1,000,000. The property is said to have been discovered by a prospector named Robert Hatchery, of Knik, Alaska, who retains a large interest. Mr. Hamilton, who will have charge of the development work, left two weeks ago and will set twelve men to work in a few days opening a tunnel in the reef, which it is planned to carry in 700 feet.

"We have not invited publicity," said Mr. Matthews to-day, "as our statements may appear extravagant, but we confidently expect that the gold, which is a true fissure, will run higher to the ton than in any other property on the continent. We expect, from the reports and assays which have been made, to block out \$2,500,000 worth of ore in three months. As soon as the snow flies we will install six stamps."

ADVERTISE IN THE TIMES

PARLIAMENT HAS ADJOURNED

SESSION WILL BE RESUMED IN NOVEMBER

Negotiations Regarding Lords Veto Will Proceed During the Recess

London, Aug. 5.—As in the days of the Conservative governments the swing of the pendulum brought the present Liberal office-holders into power, Parliament has risen for its recess this year in August. To be sure, there will be a resumption of business on November 15th, but for the present weary legislators concern themselves only with the prospects of game-killing in Scotland, the charms of yachting on the Solent or of motoring in the south of France. In recent years members have not been so fortunate. The sultry days of August have more than once seen them at work upon the green benches in the palace of Westminster. This year, however, the exigencies of the political situation made a recess imperative and, as has been said, the law-makers are hurrying on to moorland and sea.

While they are taking their holidays, the great constitutional question between the House of Lords and Commons will continue to hold public interest. The leaders of the two great parties in the state will have further conferences in the hope, as has already been announced by the premier, that a working agreement may be reached before the House of Commons is again in session.

Indications at present, so far as can be learned, are favorable, but there is no knowing what the next two months may bring forth to influence the tides and eddies of party feeling and popular judgment.

The part of the session now ended has not been of great moment. The King's death turned men's minds to peace in regard to the struggle between the democratic party and the peers. Outside of this, however, party-passions ran high. The movement for the alteration of the King's accession oath—started by the Irish Nationalist party whose members, with few exceptions, are Roman Catholics—has been fiercely contested. Its outcome, however, is welcomed by moderate men on both sides.

Beyond this, the chief event was the introduction of Mr. Lloyd-George's budget for the present year and the passing by the House of Lords of the famous finance bill of last year, the holding over of which by the peers led to the general election of February.

Mention must be made of the women's suffrage bill in regard to which Londoners witnessed some lively scenes in Parliament square. This

measure will be carried over to the autumn, but it may be said that its chances of becoming law even then are remote.

Canadian tariffs continue to receive a great deal of attention from writers in the press. Some of the leading Liberal journals are highly delighted by what they term the "revolt against protection" in the Dominion. The action of western farmers in bringing pressure to bear on Sir Wilfrid Laurier is praised and is pointed out as an argument why Britain should not depart from her traditional free trade policy.

On the other hand, the protectionist journals say that free trade in Canada at present would be little short of madness and one prominent Chamberlainite organ does not hesitate to assert that the movement in western Canada has none of the strength and importance attributed to it.

STRIKING MINERS FACE STARVATION

Have Been Out for Three Months—Business Men Urge Action to End Dispute

Greensburg, Pa., Aug. 5.—Threatened with starvation and oppressed with hardship, the striking miners of the Irwin district have written to Col. Roosevelt, entreating him to come here at once to investigate the conditions existing since a strike was declared three months ago. The communication to the former president recites in detail the enforced privations suffered by the men who have gone out of their own initiative and without union recognition.

With fifteen strikers killed and ninety injured, while hundreds more are without sufficient food, the conditions at the end of the third month are pitiable. Although many deputies are guarding the district further rioting and bloodshed is expected. The Business Men's Association of Westmoreland county has appealed to the civic organizations of Pittsburgh to use their influence to put an end to the labor differences. The urgent request is made that the municipal body investigate the state of affairs.

MORE TELEGRAPH LINES

Calgary, Aug. 5.—One indication of Calgary's rapid growth is the increasing number of telegraph lines that web this portion of the country. The Canadian Pacific is stringing more wires, which will make the number thirty-eight. Fifteen will connect this city with the east, ten will reach toward the south, eight will go through the Rockies to the west and five will connect with the north. A new transcontinental wire of copper is being carried through the west and when completed will give the C. P. R. ten transcontinental wires. The volume of business necessitates the employment of forty operators.

THREE MURDERED IN THEIR HOME

Bodies Believed to Have Been Cremated—Revenge Probably Motive for Crime

Cazadero, Cal., Aug. 5.—The disappearance of T. A. Kendall and his mother and father from their ranch near here, followed by the finding of the charred portions of human bones, has resulted in orders for a general round up of Japanese in Sonoma county. Suspicion was directed toward the Japanese when it became known that Henry Yamaguchi, a ranch hand, had been seen at the Kendall home following the disappearance of the Kendalls, and that later he had vanished.

In addition to portions of charred bone which Dr. Jesse declares once belonged to a human body, the Sonoma officials found burned and fragmentary pieces of clothing, bits of jewelry and human teeth in a mound of ashes near the Kendall home. A woman's spectacles and hair-comb were found in the grate of the kitchen stove.

The Kendalls were last seen alive July 23 by neighbors. Since then none but the Japanese was seen near the place until Tuesday last, when a second Japanese was found by Mr. and Mrs. Johnson and a boy. The Johnsons had visited the Kendall farm house out of idle curiosity. They found the place deserted, but hiding under a cot place a Japanese who skulked away after telling them that he was joking. On leaving the Japanese picked up a hunting knife from a table. The officers believe that the murders if committed were done with that weapon.

The attention of the authorities was directed to the unusual conditions at the Kendall farm house by neighbors who found the horses and other live stock in the barn and pens starving. The sheriff and his deputies searched the place thoroughly, and in a pile of ashes and debris in the yard found bits of clothing, portions of human ribs, skulls and some ribbons. A wedding ring on which "T. A. K." was engraved was found in the heap.

Sheriff Smith and his deputies re-mained at the ranch house last night. They expressed the conviction that the Japanese knew a great deal about the deaths of the Kendalls and that revenge was the motive for the crime.

SEEK TO UNSEAT DIAZ

Los Angeles, Cal., Aug. 5.—The anti-election clubs of Mexico, whose membership includes practically all of President Diaz' most bitter enemies, will, on September 15th, petition the Mexican congress to declare the recent election of Diaz void on the ground that the whole election was farcical and a disgrace to the standing of Mexico among the nations of the world.

PURIFIED HIS BLOOD

Dr. Morse's Indian Root Pills Healed Mr. Wilson's Sores

When the sewers of the body—bowels, kidneys and skin ducts—get clogged up, the blood quickly becomes impure and frequently sores break out over the body. The way to heal them, as Mr. Richard Wilson, who lives near London, Ont., found, is to purify the blood. He writes:

"For some time I had been in a low, depressed condition. My appetite left me and I soon began to suffer from indigestion. Quite a number of small sores and blotches formed all over my skin. I tried medicine for the blood and used many kinds of ointments, but without satisfactory results. What was wanted was a thorough cleansing of the blood, and I looked about in vain for some medicine that would accomplish this.

At last Dr. Morse's Indian Root Pills were brought to my notice, and they are one of the most wonderful medicines I have ever known. My blood was purified in a very short time, some headed up, my indigestion vanished. They always have a place in my home and are looked upon as the family remedy."

Dr. Morse's Indian Root Pills cleanse the system thoroughly. Sold by all dealers at 25c a box.

CROP CONDITIONS IN SOUTHERN ALBERTA

Calgary, Aug. 5.—F. Dowler, secretary of the Alberta Pacific Elevator Company, says there will be good crops harvested in southern Alberta this season. He says:

"I saw in Staveley vicinity a 300-acre field that will average 30 bushels to the acre. At Cardston, where harvesting operations are in full swing, the grain is of good quality, and samples brought to Calgary easily grade No. 1."

In speaking of central and northern Alberta, Mr. Dowler states that reports have not been exaggerated, and good crops will be reaped in practically every district north of Calgary.

P. Turner Bone, C. E., has returned from a trip through southern Alberta and says: "I consider the crops in southern Alberta a success. There will be a great deal more grain harvested in the south than most people imagine. The best crops I saw were in the Pincher Creek district, though Carleton Place is also good. I passed field after field of very fair crops. A country that can pass through such a continued spell and produce such crops must be one of the best agricultural countries on earth. Another thing I noticed is the large area of land that has been summer fallowed and put in excellent condition for winter wheat or spring seeding."

INSURGENTS GAIN GROUND.

Nicaraguan Government Troops Reported to Be Retreating—Managua Again Threatened.

Washington, D. C., Aug. 5.—That President Madriz of Nicaragua, is friendly toward the United States is the message of Dr. Sebastian Slinas, his special envoy, has come to Washington to lay before the state department.

Dr. Slinas told newspaper reporters that called on him that his country is friendly toward the United States and declared that President Madriz has never made a hostile move against Americans.

Dr. Slinas is accompanied by Dr. Modesto Barrios. They will call at the state department and it is expected they will try to persuade Secretary Knox that Madriz is not aiding former President Zelaya, who abdicated and fled to Europe. It is expected they will agree to adhere to any plan that state department officials may outline tending to bring peace in Nicaragua.

Unofficial reports received here today say Madriz' armies are retreating before the forces of General Estrada, and that Managua is again threatened by the insurgents.

EXPLOSION KILLS TWO.

Devon, Mass., Aug. 5.—Two men were killed and several injured when a boiler of the fishing steamer Satellite exploded in Boston harbor yesterday.

The London policeman arrests on an average seven persons per year, the Parisian twenty-nine.

ROCKEFELLER'S WELCOME.

Deputy Sheriff Has No Trouble in Serving Papers on Oil King.

Cleveland, O., Aug. 5.—Expecting to jump over the walls of the Rockefeller estate and fight his way into the presence of the "oil king," Deputy Sheriff Halloran, who had papers to serve on John D. Rockefeller, was agreeably surprised yesterday when he was met at the gate by a light rig and driven in state to the Rockefeller manor.

When he announced his errand at the gates, Keeper Lynch telephoned to the house and then said: "Mr. Rockefeller will see you and has ordered his carriage to be sent to take you to the house."

When the carriage drew up, Rockefeller was on the veranda. "What can I do for you?" he said.

After the papers were served, Rockefeller ordered that Halloran be driven to the gate. The deputy, however, elected to walk through the grounds in order to see the estate. Rockefeller accompanied him and pointed out the best views.

FIVE ROOM COTTAGE and five lots, all modern conveniences, near car and school. \$4,500.

Improvements Which Have Been Made Since Fire Swept City in 1908

The Fernie Free Press of July 29th says: On Monday it will be two years since the people of Fernie commenced to rehabilitate their city.

The people of Fernie have erected 70 fireproof buildings at an average cost of \$18,000. Frame buildings for business to the value of \$150,000 have been put up. Nine hundred homes have been erected, the residences averaging \$1,500 apiece.

While the individuals have been attending to business the municipality has kicked off its swaddling clothes and acquired some stature. The city has installed the most perfect water supply in the province. There is an unlimited supply at a pressure of 90 lbs. to the square inch.

Fernie has purchased a park of 188 acres adjoining the city on one side and is now negotiating for another park at the opposite side of the city.

This city has built a \$50,000 school, a \$15,000 fire hall and a city hall of equal value since the fire. City supports a paid fire department with equipment that includes one three-horse team, one two-horse team, hose and ladder wagon, chemical engine and 9,000 feet of hose.

The city has laid ten miles of sidewalks and stumped and cleared three miles of new streets.

PHOENIX, AUG. 4.—During the past few days fire wardens in this locality have been using every precaution to save forest wealth and personal property from loss by forest fires.

The question of holding a fair in this city this fall was generally discussed, and every person in the room placed himself on record in favor of the enterprise.

Grand Forks, Aug. 4.—A meeting of the directors of the Grand Forks Agricultural Association was held in the city hall.

Vancouver, Aug. 4.—A Japanese child whose parents, Mr. and Mrs. K. Shizuma, reside at 608 Powell street, was accidentally killed on Powell street near the corner of Jackson avenue on Monday morning.

Lillooet, Aug. 4.—Work on the Lillooet cottage hospital, for which tenders have been called, will commence almost immediately.

The front of the building will be 30 feet with a neat veranda, the east side of the building will be 42 feet 4 inches, the south end 29 feet, and the west side 52 feet. The elevation will be about 16 feet, including a cement foundation of about six feet. There will be ample frost-proof cellarage and provision will be made for the installation of a furnace when funds will permit it.

The interior consists of one large ward, two single wards, operating room, attendants' room, dining room, kitchen, and bathroom, and with all the usual conveniences.

The building will be erected at the east end of the town on the old base-ball ground, the government having donated the whole of block 9 for hospital purposes.

Vancouver, Aug. 4.—A Japanese child whose parents, Mr. and Mrs. K. Shizuma, reside at 608 Powell street, was accidentally killed on Powell street near the corner of Jackson avenue on Monday morning.

Take Notice that the Partnership heretofore existing between Frederick Jeune and Phillip Jeune, trading as Jeune and Brother, at No. 570 Johnson Street, has been dissolved by mutual consent as from the 30th day of June, 1910.

All liabilities of the firm will be met by F. Jeune who is continuing the business and all monies owing to the late firm are to be paid to the said F. Jeune.

Dated this 25th day of July, 1910. F. JEUNE, P. JEUNE.

Keep cool by taking one of those delightful trips among the Queen Islands Wednesday, Saturday and Sunday, V. & S. train and steamer Inverloch.

Dr. Chase's Ointment is a certain cure for piles. It is a certain cure for hemorrhoids, and every form of piles.

NOTICE

"NAVIGABLE WATERS PROTECTION ACT"

Notice is hereby given that John Raymond, of the City of Victoria, British Columbia, is applying to His Excellency the Governor-General of Canada in Council for approval of the plans and descriptions of site, of works proposed to be constructed by him in Victoria Harbor, immediately fronting Lot 52A, Block 41, Bovey Park, Victoria, B. C., and has deposited the said plans and descriptions of site with the Minister of Public Works at Ottawa, and a duplicate thereof with the Registrar General of Titles in the Land Registry Office, Victoria, B. C., and that the matter of the said application will be proceeded with at the expiration of one month from the time of the first publication of this notice in the "Canada Gazette." Dated this 5th day of July, 1910.

W. H. LANGLEY, 1111 Government St., Victoria, B. C., Solicitor for the Applicant.

TRAGEDY ON RANCH IN CALIFORNIA

Man Who Murdered Three Persons Still at Liberty—Money Missing

(Times Leased Wire.)

Santa Rosa, Aug. 5.—A systematic search of the Starbuck ranch, near Cazadero, where T. A. Kendall, his mother and father, were killed, is expected to-day to throw new light upon the motive for the crime. While it is the belief of the authorities that revenge was the principal factor, District Attorney Lea admitted to the United Press to-day that \$300 collected by Kendall is missing.

"In addition to the general suspicion attaching to the missing Japanese ranch hand, Henry Yamaguchi, we know specifically that he borrowed \$2 from a Japanese named Yoshida to enable him to reach the Starbuck ranch," said Lea to-day. "When Yamaguchi returned alone, he gave Yoshida a \$3 gold piece.

"Coroner Blackburn and myself are leaving here to-day for the ranch. We expect to find additional evidence that will aid in capturing the murderers. The garden of the ranch house will be thoroughly overthrown by Sheriff Smith and deputies in the hope that more portions of bodies may be found.

TAKE STEPS TO PRESERVE PEACE

(Continued from page 1.)

sons from the country districts into San Sebastian. The military governor has issued proclamation forbidding all gatherings but those of regular Catholic assemblies in the churches, and prohibiting outsiders from entering the town. This latter precaution was taken following reports that Biscayan priests are arming their parishioners and urging them to enter San Sebastian.

The reports indicate that the Basques in Biscayalava, Culpeucos and Navarre have seized trains and small river craft, and the protesting to fight troops sent to prevent their depredations.

Portugal and Vatican. Rome, Aug. 5.—The rejection by Pope Pius of two nominations to fill the post of the late Senor Antos, ambassador to the Vatican, by Portugal, is believed here to foreshadow a severing of diplomatic relations between the Holy See and the Portuguese court.

That Portugal is preparing to follow the lead of Spain in attempting to separate Church and State was shown recently when a Portuguese Franciscan newspaper, "The Voice of St. Anthony," adopted a tone that displeased His Holiness, who ordered Cardinal Del Val to direct the bishop of Braga to suspend publication of the periodical.

The Portuguese government promptly issued a royal decree censuring the whole proceeding on the ground that the Vatican had infringed upon royal prerogative and failing to submit the Papal order to the king for his approval.

EXECUTION PROCEEDINGS.

Judge Lampman, in county court, heard argument and reserved judgment in a case in which the parties were F. R. Stewart & Co. (execution creditors) vs. William Trinder (execution debtor); Hilda Cooper (claimant) and F. R. Stewart & Co. and Sheriff Richards (respondents). William Trinder, proprietor of the Windsor cafe in August, 1909, sold his business to one W. H. Harrison, who omitted to take the statutory declaration under the provisions of the Bulk Sales Act, 1908.

In November, 1909, the sheriff, under an execution against Trinder, at the suit of the Pioneer Coffee Company, seized the goods transferred by Trinder to Harrison, contending that the omission to take the declaration above referred to rendered the sale to Harrison fraudulent and void as against the creditors of Trinder, and that the goods purported to have been transferred were still in law the goods of Trinder. Interpleader proceedings were commenced, but Trinder paid off the judgment. In June, 1910, the sheriff again seized the goods on an execution issued at the suit of F. R. Stewart & Co. against Trinder, a similar contention being set up. Interpleader proceedings were commenced on behalf of Harrison, but during their pendency, Harrison sold the business to Mrs. Hilda Cooper. The proceedings were discontinued and a new application made on behalf of Mrs. Cooper.

WANT INTER-COLONIAL.

The Montreal Gazette, in a recent issue, had the following news item: Mr. William Mackenzie announced last evening, probably the first time for publication, that the Canadian Northern railway desired to get possession of the Intercolonial from Montreal to Halifax and Sydney. For four and a half years Mr. Mackenzie said, the Canadian Northern until now had done nothing on the main line, but during that time they had built no less than twelve hundred

Three Things to Remember--Always

—That Weiler Bros. is "The House that has the Goods," in largest assortment and in all grades.
—That Weiler Bros. is "The House that Can and Does" sell at lowest prices consistent with quality, first, last, always;
—That Weiler Bros. is "The House that offers to One and All Best terms, liberal, convenient, fair."
While the above three assertions may at first seem rather broad, we are happy to be in a position to prove their truth. While "Sales" may tempt you at first thought, on second consideration you may save yourself from deception.
